(57) **CLAIM**

The ornamental design for a daytime running light arrange-
ment for a tail light, as shown and described.

Related U.S. Application Data

DESCRIPTION

(62) Division of application No. 29/687,371, filed on Apr.
12, 2019, now Pat. No. Des. 913,546.

FIG. 1 is a front left elevated perspective view of a daytime
running light arrangement for a tail light of a vehicle;
FIG. 2 is a front left perspective view thereof;
FIG. 3 is a front view thereof;
FIG. 4 is a left side view thereof;
FIG. 5 is another front view thereof, but with the daytime
running light arrangement mounted on a vehicle, and the rest
of the vehicle shown in de-emphasized and half-tone por-
tions to illustrate environmental structure. These portions
form no part of the claimed design. More particularly, in
FIG. 5, the daytime running light arrangement is shown
within the broken line; and,
FIG. 6 shows an alternative embodiment, with the same
daytime running light arrangement located on both sides of
the unclaimed vehicle, as mirror images, thereby comprising
an arrangement which includes a pair of daytime running
lights.

In FIGS. 1-6, for visual clarity, a darker shade is used to
show the activated, or illuminated, state of the tail light, in
inverted fashion. This darker shade itself forms no part of the
claimed design. Also, in these figures, the surrounding
lighter tone portions are included for environmental pur-
poses, and form no part of the claimed design.
