(57) **CLAIM**

The ornamental design for a hose nozzle, as shown, and described.

DESCRIPTION

FIG. 1 is an isometric view of the rear, top and left side of a hose nozzle showing my new design;

FIG. 2 is an isometric view of the front, top and left side thereof;

FIG. 3 is a left side elevation view thereof, the right side elevation view being substantially a mirror image of the left side elevation view;

FIG. 4 is a front elevation view thereof;

FIG. 5 is a rear elevation view thereof;

FIG. 6 is an isometric view of the rear, top and left side of an alternative embodiment with knurling, of the hose nozzle showing my new design;

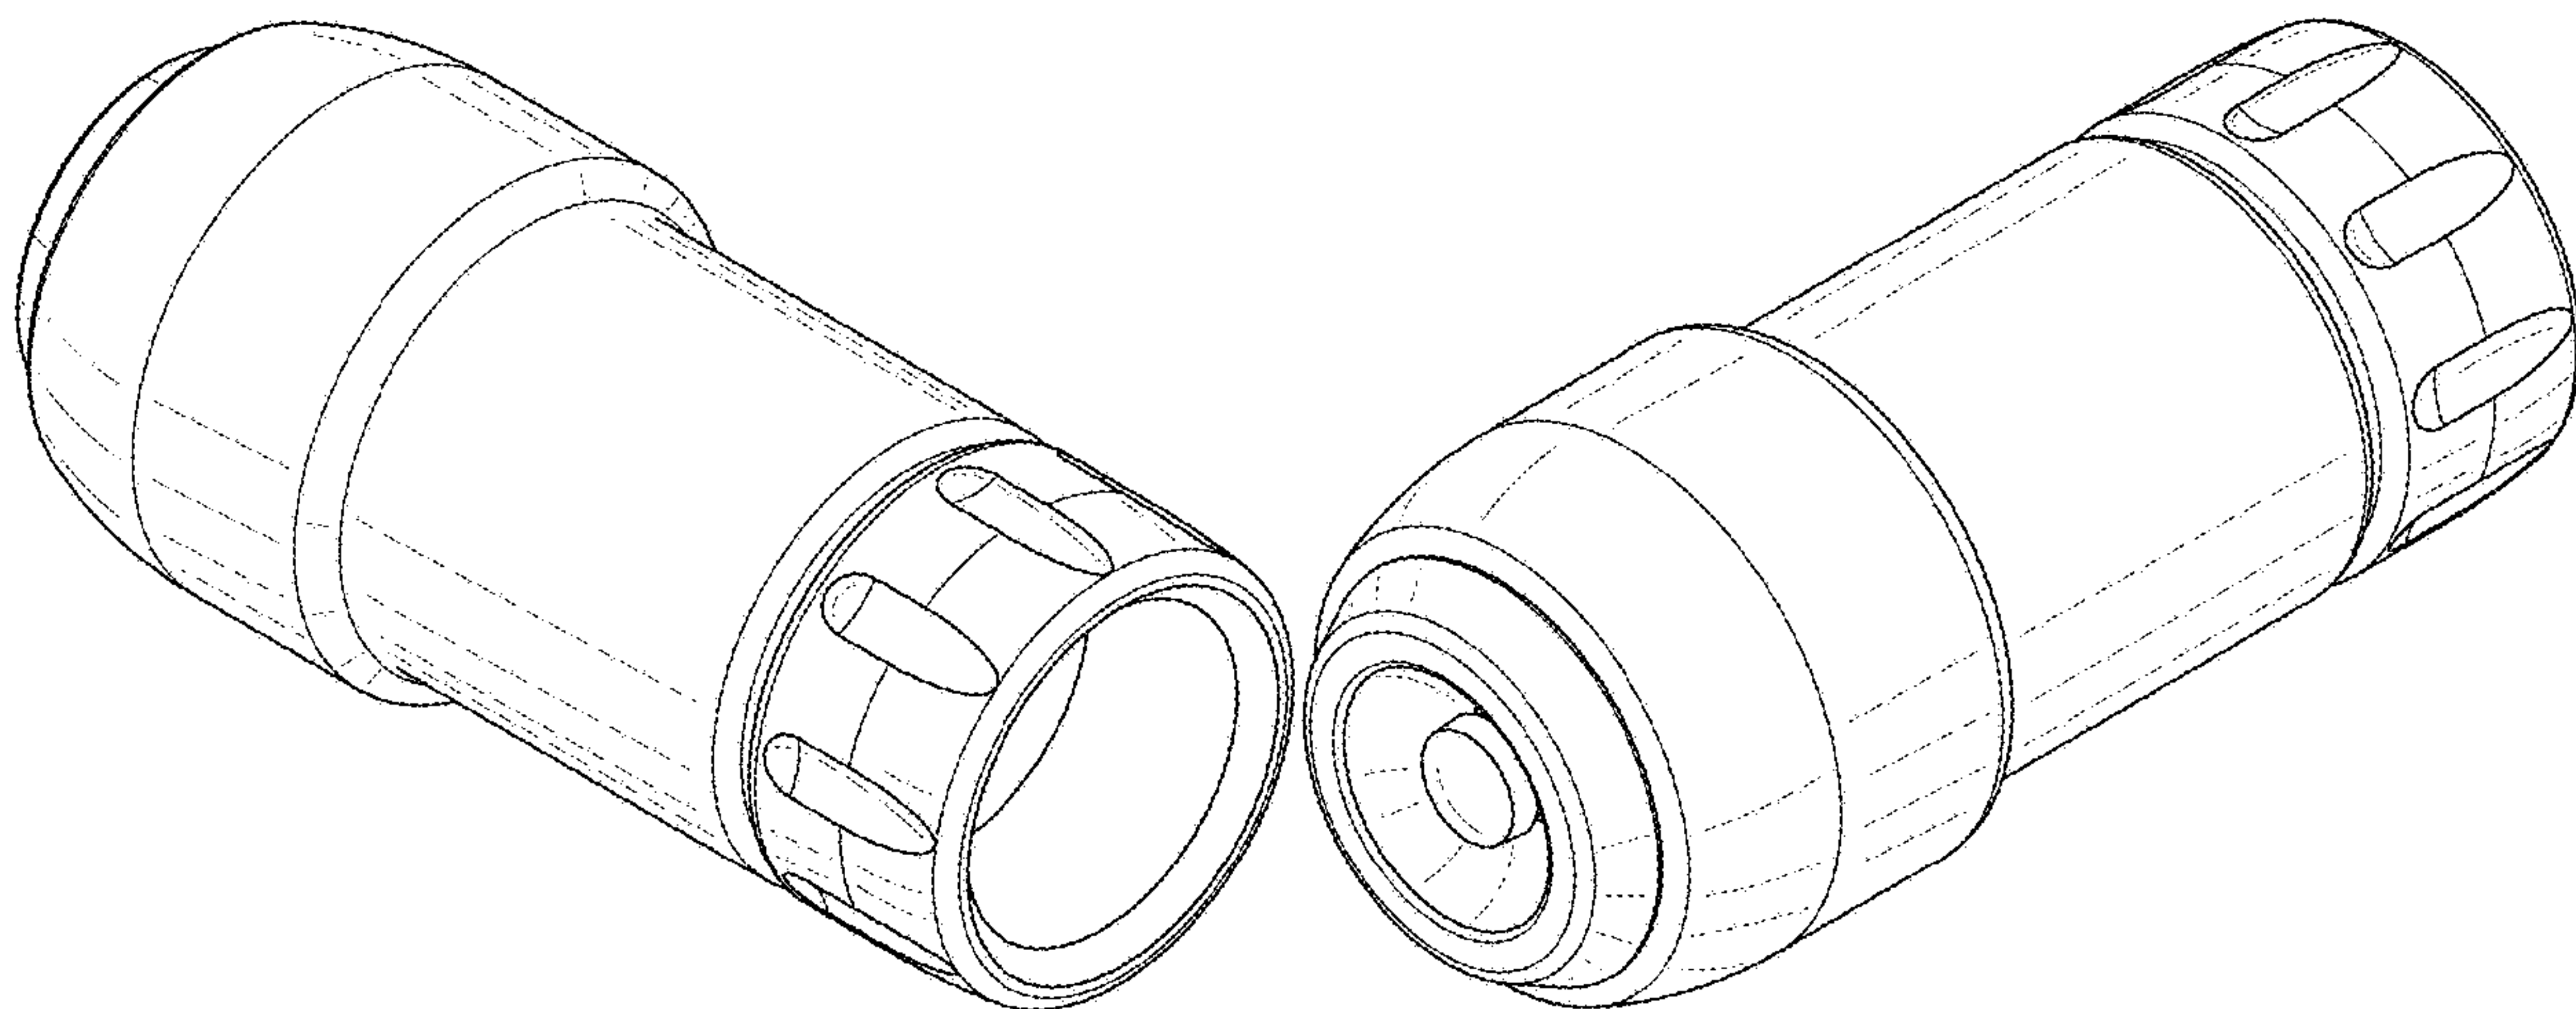

FIG. 7 is an isometric view of the front, top and left side of the alternative embodiment with knurling;

FIG. 8 is a left side elevation view of the alternative embodiment with knurling, the right side elevation view of the alternative embodiment with knurling being substantially a mirror image of the left side elevation view of the alternative embodiment with knurling;

FIG. 9 is a front elevation view of the alternative embodiment with knurling; and,

FIG. 10 is a rear elevation view of the alternative embodiment with knurling.

1 Claim, 8 Drawing Sheets
