(57) **CLAIM**

The ornamental design for “pair of true wireless stereo earphones”, as shown and described.

**DESCRIPTION**

FIG. 1 is a first perspective view of a pair of true wireless stereo earphones according to a first embodiment of the present application;

FIG. 2 is a second perspective view of the pair of true wireless stereo earphones according to the first embodiment of the present application;

FIG. 3 is a front view of the pair of true wireless stereo earphones according to the first embodiment of the present application;

FIG. 4 is a rear view of the pair of true wireless stereo earphones according to the first embodiment of the present application;

FIG. 5 is a left view of the pair of true wireless stereo earphones according to the first embodiment of the present application;

FIG. 6 is a right view of the pair of true wireless stereo earphones according to the first embodiment of the present application;

FIG. 7 is a top view of the pair of true wireless stereo earphones according to the first embodiment of the present application;

FIG. 8 is a bottom view of the pair of true wireless stereo earphones according to the first embodiment of the present application;

FIG. 9 is a first perspective view of a pair of true wireless stereo earphones according to a second embodiment of the present application;

(Continued)

FIG. 10 is a second perspective view of the pair of true wireless stereo earphones according to the second embodiment of the present application;

FIG. 11 is a front view of the pair of true wireless stereo earphones according to the second embodiment of the present application;

FIG. 12 is a rear view of the pair of true wireless stereo earphones according to the second embodiment of the present application;

FIG. 13 is a left view of the pair of true wireless stereo earphones according to the second embodiment of the present application;

FIG. 14 is a right view of the pair of true wireless stereo earphones according to the second embodiment of the present application;

FIG. 15 is a top view of the pair of true wireless stereo earphones according to the second embodiment of the present application;

FIG. 16 is a bottom view of the pair of true wireless stereo earphones according to the second embodiment of the present application;

FIG. 17 is a first perspective view of a pair of true wireless stereo earphones according to a third embodiment of the present application.

FIG. 18 is a second perspective view of the pair of true wireless stereo earphones according to the third embodiment of the present application;

FIG. 19 is a front view of the pair of true wireless stereo earphones according to the third embodiment of the present application;

FIG. 20 is a rear view of the pair of true wireless stereo earphones according to the third embodiment of the present application;

FIG. 21 is a left view of the pair of true wireless stereo earphones according to the third embodiment of the present application;

FIG. 22 is a right view of the pair of true wireless stereo earphones according to the third embodiment of the present application;

FIG. 23 is a top view of the pair of true wireless stereo earphones according to the third embodiment of the present application; and,

FIG. 24 is a bottom view of the pair of true wireless stereo earphones according to the third embodiment of the present application.

The broken lines in the figures depict portions of the pair of true wireless stereo earphone set that form no part of the claimed design.
