(57) **CLAIM**

The ornamental design for a display device with graphical user interface having a progress wheel, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image of a display device with graphical user interface having a progress wheel according to the invention.

FIG. 2 is a second image thereof.

FIG. 3 is a third image thereof.

FIG. 4 is a fourth image thereof.

FIG. 5 is a fifth image thereof; and,

FIG. 6 is a sixth image thereof.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1, 2, 3, 4, 5, and 6. The progress period in which one image transitions to another image forms no part of the claimed design.

The dashed broken line showing of the electronic device, display screen and portions of the graphical user interface is for the purpose of illustrating environmental structure and forms no part of the claimed design. The short-dashed broken line showing text elements is for the purpose of illustrating environmental structure and forms no part of the claimed design.

The black fill is used to show color contrast as being a different color from grey fill elements and white fill elements, including background. The grey fill is used to show color contrast as being a different color from the black fill elements and white fill elements, including background.

1 Claim, 6 Drawing Sheets
