(57) **CLAIM**

The ornamental design for a display panel with news headlines graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display panel with news headlines graphical user interface, according to a first embodiment. FIG. 2 is a front view of a display panel with news headlines graphical user interface, according to a second embodiment. FIG. 3 is a front view of a display panel with news headlines graphical user interface, according to a third embodiment. FIG. 4 is a front view of a display panel with news headlines graphical user interface, according to a fourth embodiment. FIG. 5 is a front view of a display panel with news headlines graphical user interface, according to a fifth embodiment. FIG. 6 is a front view of a display panel with news headlines graphical user interface, according to a sixth embodiment. FIG. 7 is a front view of a display panel with news headlines graphical user interface, according to a seventh embodiment. FIG. 8 is a front view of a display panel with news headlines graphical user interface, according to an eighth embodiment; and, FIG. 9 is a front view of a display panel with news headlines graphical user interface, according to a ninth embodiment. The outermost broken lines in the drawings illustrate an electronic device and are included for the purpose of illustrating the environment of the design and form no part of the claimed design. The remaining broken lines illustrate portions of the graphical user interface that form no part of the claimed design.

1 Claim, 9 Drawing Sheets
