(57) **CLAIM**

The ornamental design for an electronic display for a wearable device presenting a graphical user interface, as shown and described.

DESCRIPTION

FIG. **1** is a front view of a first image of an electronic display for a wearable device presenting a graphical user interface, showing our new design;

FIG. **2** is an enlarged front view taken from FIG. **1**;

FIG. **3** is a front view of a second image thereof; and,

FIG. **4** is an enlarged front view taken from FIG. **3**.

The appearance of the graphical user interface transitions sequentially between the images shown in FIGS. **1** and **3** and FIGS. **2** and **4**. The process or period in which one image transitions to another forms no part of the claimed design.

The broken line showing of the electronic display for a wearable device presenting a graphical user interface is for the purpose of illustrating portions of the electronic display for a wearable device presenting a graphical user interface and forms no part of the claimed design.

The dot-dash broken line encircling the enlarged portions forms no part of the claimed design.
