(57) **CLAIM**

The ornamental design for a display screen or portion thereof with animated graphical user interface, as shown and described.

**DESCRIPTION**

This invention was made with government support under Contract No. W56HZV-07-C-0256 awarded by the United States Army. The United States Government has certain rights in the inventions.

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

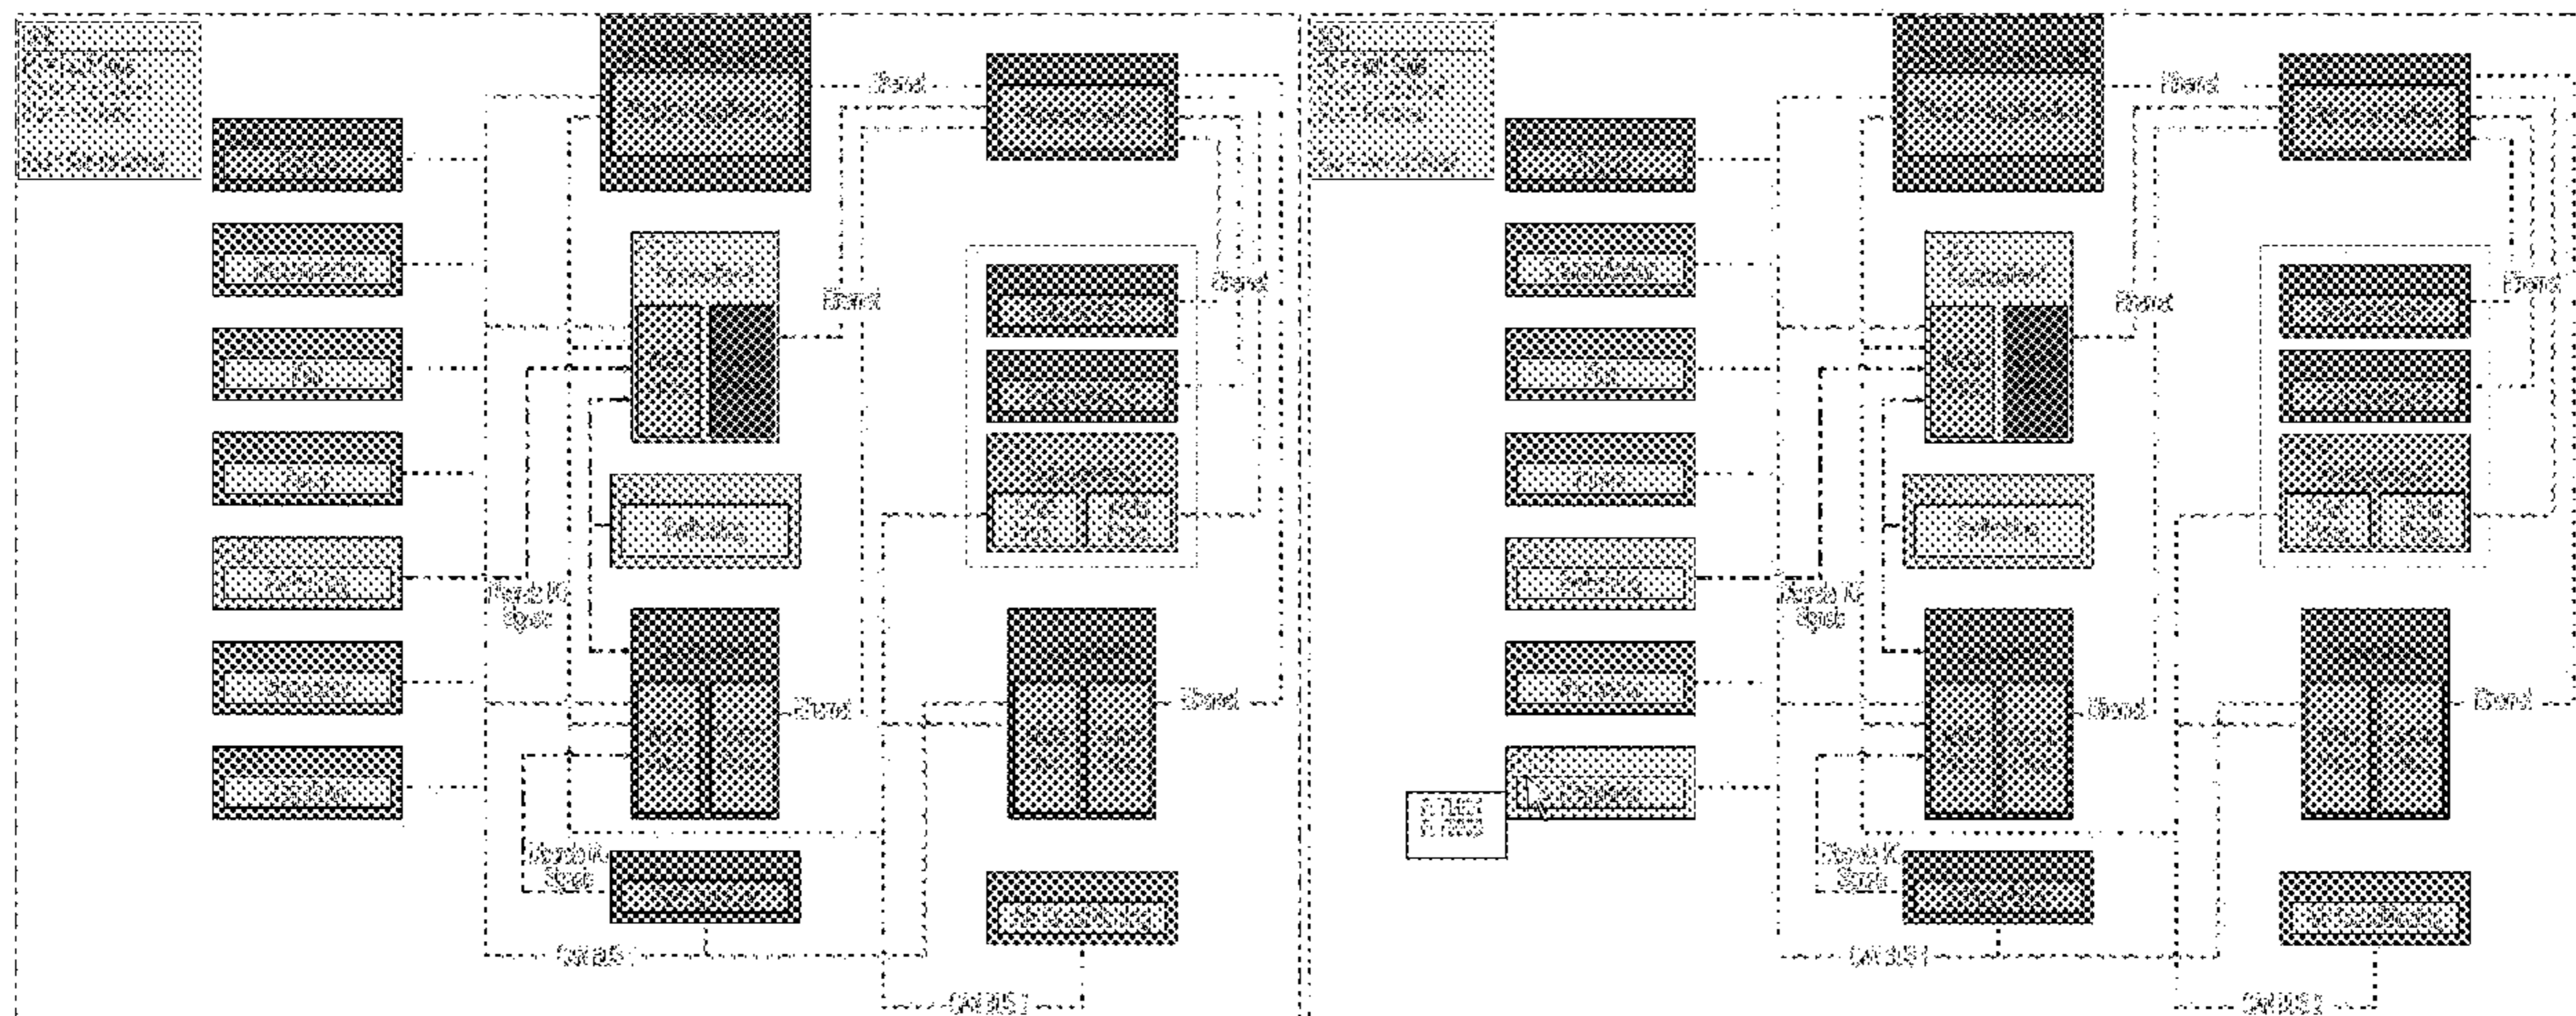

FIG. 1 is a first image of a graphical user interface for displaying vehicle operational status; and,

FIG. 2 is a second image thereof.

The appearance of the animated graphical user interface sequentially transitions from FIG. 1 to FIG. 2. The process or period in which one image transitions to another forms no part of the claimed design.

The colored dot-dash lines in the figures connecting to solid line portions of the design form part of the claim. The broken line showing of display screen, portions of display screen, text and graphical elements form no part of the claimed design.
