(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen or portion thereof with graphical user interface showing a first image of our new design.

FIG. 2 is a front view of a display screen or portion thereof with graphical user interface showing a second image of our new design.

FIG. 3 is a front view of a display screen or portion thereof with graphical user interface showing a third image of our new design.

FIG. 4 is a front view of a display screen or portion thereof with graphical user interface showing a fourth image of our new design.

FIG. 5 is a front view of a display screen or portion thereof with graphical user interface showing a fifth image of our new design; and,

FIG. 6 is a front view of a display screen or portion thereof with graphical user interface showing a sixth image of our new design.

The appearance of the images transition from the first image through to the sixth image as depicted in FIGS. 1-6. The process or period for transition from one image to another image forms no part of the claimed design.

The outermost uneven-length broken lines of FIGS. 1-6 illustrate a display screen or portion thereof, showing the design in an environment of use with an electronic device.

The even length broken lines within the display screen or portion thereof, in FIGS. 1-6 illustrate portions of the graphical user interface that form no part of the claimed design.
