(57) **CLAIM**

We claim the ornamental design for a child-resistant medication container, as substantially shown and described.

DESCRIPTION

FIGS. 1-8 are various views of a child-resistant medication container in accordance with the present design. The container is adapted to contain a plurality of doses of medication therein.

FIG. 1 is a front perspective view of a child-resistant medication container, shown in a closed position.

FIG. 2 is a top view thereof.

FIG. 3 is a front view thereof.

FIG. 4 is a left side view thereof.

FIG. 5 is a right side view thereof.

FIG. 6 is a rear view thereof.

FIG. 7 is a bottom view thereof; and,

FIG. 8 is another front perspective view thereof, shown in an open position.

The dash-dash broken lines illustrate portions of the child-resistant medication container. The long dash-short dash-long dash broken lines represent perforations. The broken lines form no part of the claimed design.

1 Claim, 8 Drawing Sheets
