(57) CLAIM

The ornamental design for a belt of a printing system, as shown and described.

DESCRIPTION

FIG. 1 is a top view of a first embodiment of a belt for a printing system showing the new design; FIG. 2 is a bottom view thereof; FIG. 3 is a right view thereof; FIG. 4 is a left view thereof; FIG. 5 is a front view thereof; FIG. 6 is a back view thereof; FIG. 7 is a perspective view thereof; FIG. 8 is a top view of a second embodiment of a belt for a printing system showing the new design; FIG. 9 is a bottom view thereof; FIG. 10 is a right view thereof; FIG. 11 is a left view thereof; FIG. 12 is a front view thereof; FIG. 13 is a back view thereof; FIG. 14 is a perspective view thereof; FIG. 15 is a top view of a third embodiment of a belt for a printing system showing the new design; FIG. 16 is a bottom view thereof; FIG. 17 is a right view thereof; FIG. 18 is a left view thereof; FIG. 19 is a front view thereof; FIG. 20 is a back view thereof; FIG. 21 is a perspective view thereof; FIG. 22 is a top view of a fourth embodiment of a belt for a printing system showing the new design; FIG. 23 is a bottom view thereof; FIG. 24 is a right view thereof; FIG. 25 is a left view thereof; FIG. 26 is a front view thereof; FIG. 27 is a back view thereof; FIG. 28 is a perspective view thereof; FIG. 29 is a top view of a fifth embodiment of a belt for a printing system showing the new design; FIG. 30 is a bottom view thereof; FIG. 31 is a right view thereof; FIG. 32 is a left view thereof; FIG. 33 is a front view thereof; FIG. 34 is a back view thereof; FIG. 35 is a perspective view thereof; FIG. 36 is a top view of a sixth embodiment of a belt for a printing system showing the new design; FIG. 37 is a bottom view thereof; FIG. 38 is a right view thereof; FIG. 39 is a left view thereof; FIG. 40 is a front view thereof; FIG. 41 is a back view thereof; and, FIG. 42 is a perspective view thereof. In the drawings, the evenly dashed lines illustrate portions of the belt for a printing system that form no part of the claimed design. The belt of a printing system is shown with a symbolic break in its width. The appearance of any portion of the article between the break lines forms no part of the claimed design. The front and back of the belt are shown symbolically broken away. Portions of the article beyond what is shown in the drawings form no part of the claimed design. The symbolic break lines form no part of the claimed design. In the embodiments of FIGS. 1-14, a black woven pattern indicates a first pattern of the material, and a horizontal twist pattern indicates a second pattern of the material.

In the embodiments of FIGS. **15-28**, a dotted hatching pattern indicates a first pattern of the material, and a cube hatching pattern indicates a second pattern of material.

In the embodiments of FIGS. **29-42**, shading lines indicate a first pattern of the material, and stippling indicates a second pattern of the material.
