(57) **CLAIM**

The ornamental design for a tire, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of a tire, showing our new design;

FIG. 2 is a front view thereof;

FIG. 3 is a left side view thereof; and,

FIG. 4 is a partial enlarged view of the indicated area “4” in FIG. 2.

According to the present invention, a rear view is a mirror image of a front view thereof, and a right side view is identical to a left side view. The broken lines depict portions of the tire in which the design is embodied that form no part of the claimed design.

The dot-dash broken lines indicating an enlargement portion of the design form no part of the claimed design.

The stippling shading on the surfaces of the tire is for the purpose of indicating the depth and contours of the tire.
