(57) **CLAIM**

The ornamental design for a display screen or portion thereof with a graphical user interface for handling swipe gesture, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen or portion thereof with a graphical user interface for handling swipe gesture showing the new design in a first position.
 FIG. 2 is a front view of a display screen or portion thereof with a graphical user interface for handling swipe gesture showing the new design in a second position.
 FIG. 3 is a front view of a display screen or portion thereof with a graphical user interface for handling swipe gesture showing the new design in a third position; and,
 FIG. 4 is a front view of a display screen or portion thereof with a graphical user interface for handling swipe gesture showing the new design in a fourth position.
 Within the drawings, the broken lines show the display screen or portion thereof and the portions of the graphical

user interface which are excluded from the claim and form no part of the claimed design. The broken line showing of a finger and directional arrow are for the purpose of illustrating environment that forms no part of the claim.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-4. The process or period in which one image transitions to another image forms no part of the claimed design.
