*Primary Examiner* — Eliza Z Bennett-Hattan

(57) **CLAIM**

The ornamental design for a universal wall mount, as shown and described.

**DESCRIPTION**

FIG. 1 is a top right front perspective view of a design for a universal wall mount in a first position;  
FIG. 2 is a front view of the design for the universal wall mount in the first position;  
FIG. 3 is a rear view of the design for the universal wall mount in the first position;  
FIG. 4 is a left side view of the design for the universal wall mount in the first position;  
FIG. 5 is a right side view of the design for the universal wall mount in the first position;  
FIG. 6 is a top view of the design for the universal wall mount in the first position;  
FIG. 7 is a bottom view of the design for the universal wall mount in the first position;  
FIG. 8 is a top right front perspective view of the design for the universal wall mount in the first position in relation to an example first tool organizer;  
FIG. 9 is a front view of the design for the universal wall mount in the first position in relation to the example first tool organizer;  
FIG. 10 is a rear view of the design for the universal wall mount in the first position in relation to the example first tool organizer;  
FIG. 11 is a left side view of the design for the universal wall mount in the first position in relation to the example first tool organizer;  
FIG. 12 is a right side view of the design for the universal wall mount in the first position in relation to the example first tool organizer;  
FIG. 13 is a top view of the design for the universal wall mount in the first position in relation to the example first tool organizer;

(Continued)

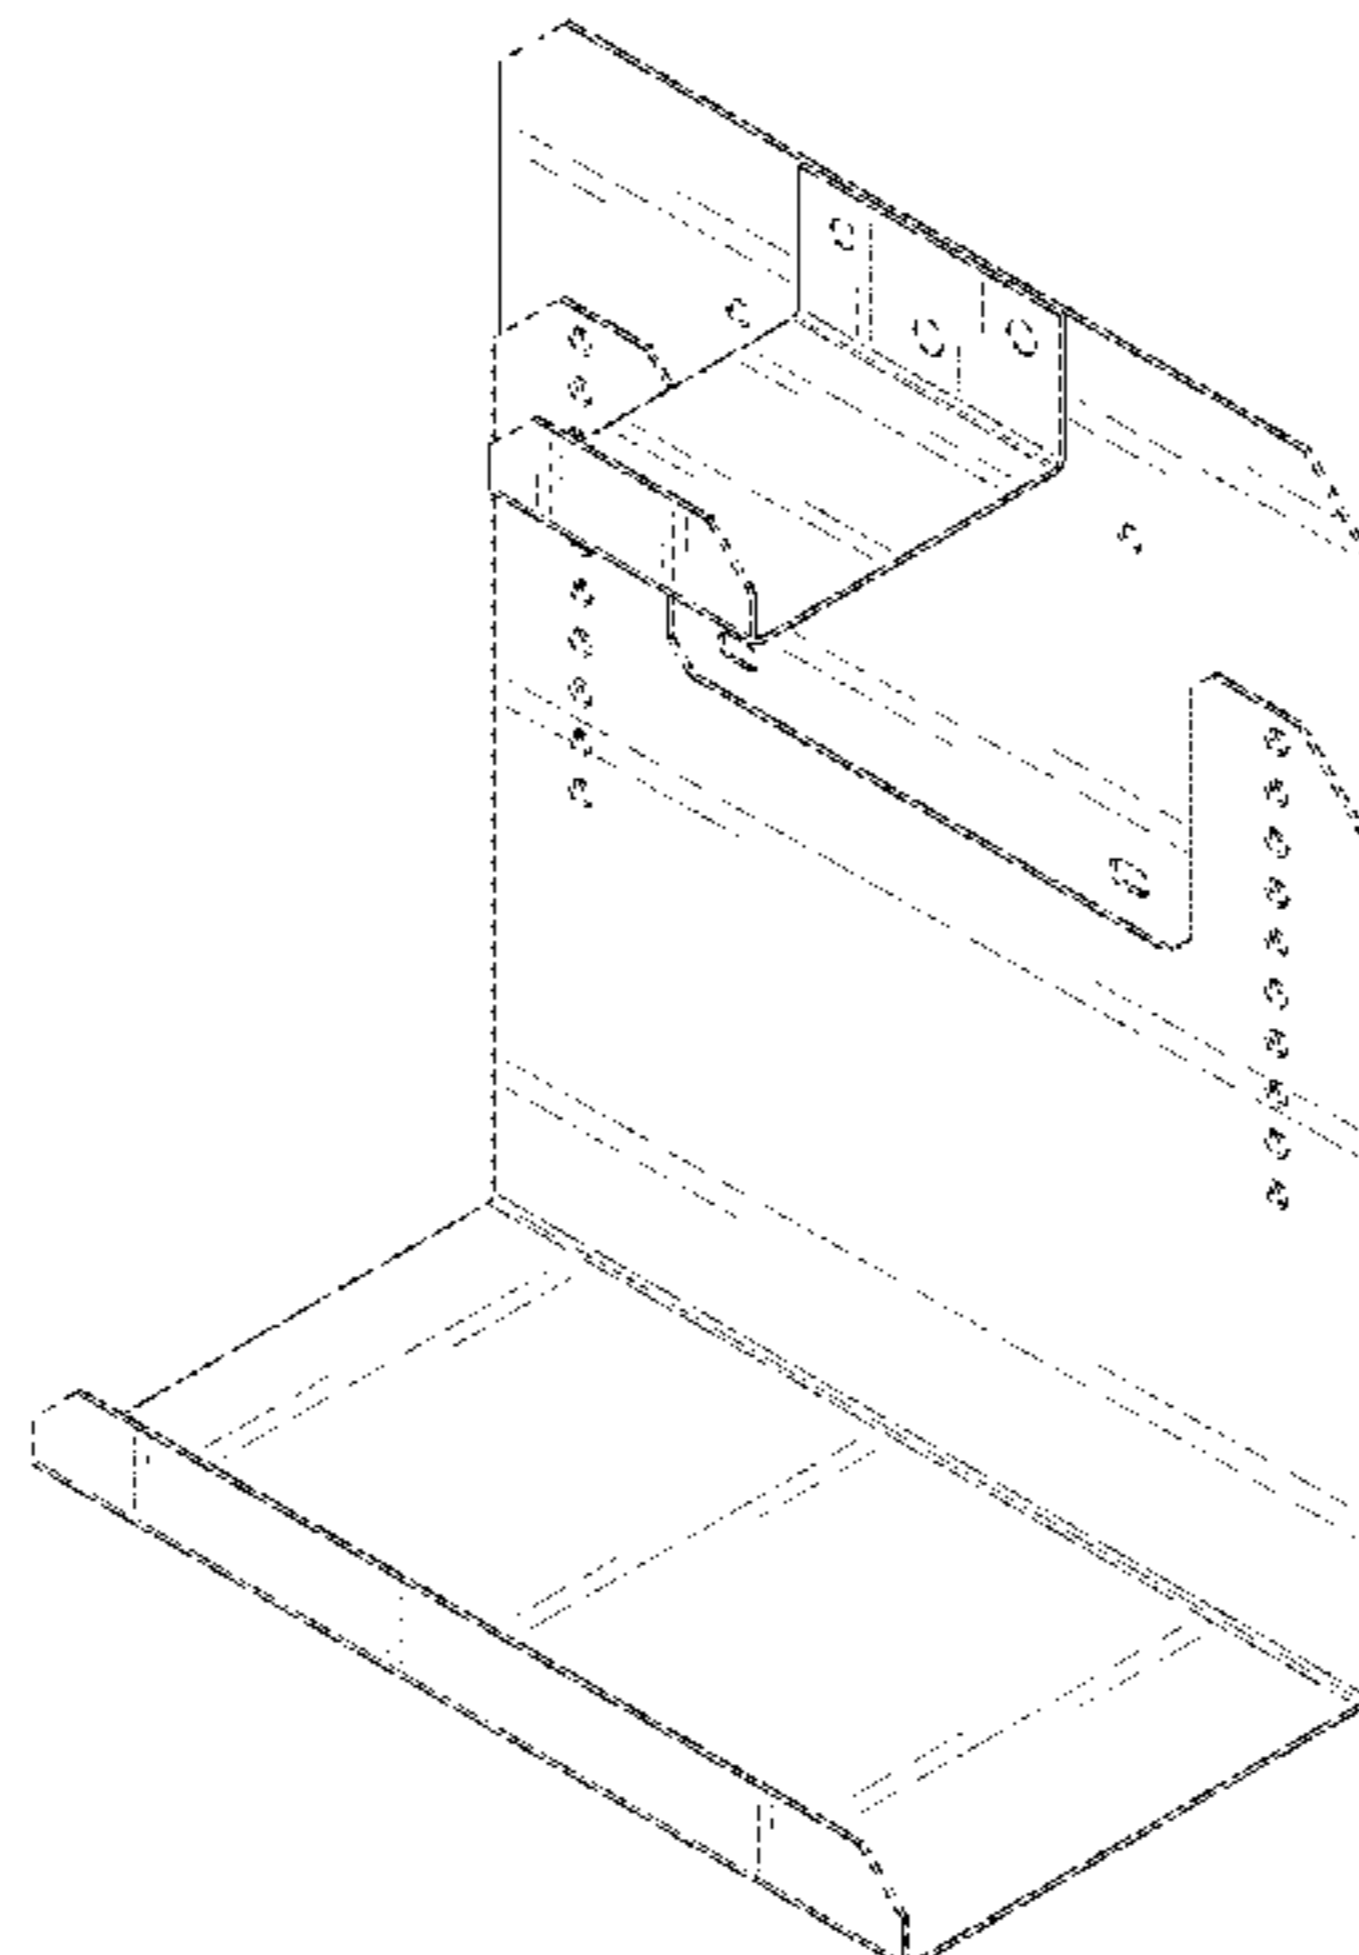

FIG. 14 is a bottom view of the design for the universal wall mount in the first position in relation to the example first tool organizer;

FIG. 15 is a top right front perspective view of the design for the universal wall mount in a second position in relation to an example second tool organizer;

FIG. 16 is a front view of the design for the universal wall mount in the second position in relation to the example second tool organizer;

FIG. 17 is a rear view of the design for the universal wall mount in the second position in relation to the example second tool organizer;

FIG. 18 is a left side view of the design for the universal wall mount in the second position in relation to the example second tool organizer;

FIG. 19 is a right side view of the design for the universal wall mount in the second position in relation to the example second tool organizer;

FIG. 20 is a top view of the design for the universal wall mount in the second position in relation to the example second tool organizer; and,

FIG. 21 is a bottom view of the design for the universal wall mount in the second position in relation to the example second tool organizer.

The features shown in broken lines depict environmental structure only and form no part of the claimed design.
