(Continued)

The appearance of the animated graphical user interface sequentially transitions between the images shown in FIGS. 1-6, 7-13, and 14-19. The process or period in which one image transitions to another forms no part of the claimed design. The broken-line showing of the text, display screen, and the remainder of the graphical user interface illustrate portions of the display screen with animated graphical user interface and forms no part of the claimed design.
