(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of a first embodiment of a display screen or portion thereof with graphical user interface, showing my new design;

FIG. 2 is a front view of a second embodiment of a display screen or portion thereof with graphical user interface, showing my new design;

FIG. 3 is a front view of a third embodiment of a display screen or portion thereof with graphical user interface, showing my new design;

FIG. 4 is a front view of a fourth embodiment of a display screen or portion thereof with graphical user interface, showing my new design;

FIG. 5 is a front view of a fifth embodiment of a display screen or portion thereof with graphical user interface, showing my new design;

FIG. 6 is a front view of a sixth embodiment of a display screen or portion thereof with graphical user interface, showing my new design;

FIG. 7 is a front view of a seventh embodiment of a display screen or portion thereof with graphical user interface, showing my new design; and,

FIG. 8 is a front view of an eighth embodiment of a display screen or portion thereof with graphical user interface, showing my new design.

The outer perimeter shown in broken lines in the drawings represents a display screen or portion thereof and forms no part of the claimed design. The white broken lines showing letters or numbers of the graphical user interface form no
