DESCRIPTION

(58) **Field of Classification Search**
USPC D14/485–495
CPC H04M 1/72519–72561; G06F 15/0266;
G06Q 10/06; G06Q 10/109; G06Q 50/01;
H04L 51/32

FIG. 1 is a front view of the display screen or portion thereof with a graphical user interface for an integrated disease management system implemented on a mobile device in accordance with the present invention; and, FIG. 2 is a back view of the display screen or portion thereof with a graphical user interface for an integrated disease management system of FIG. 1.

See application file for complete search history.

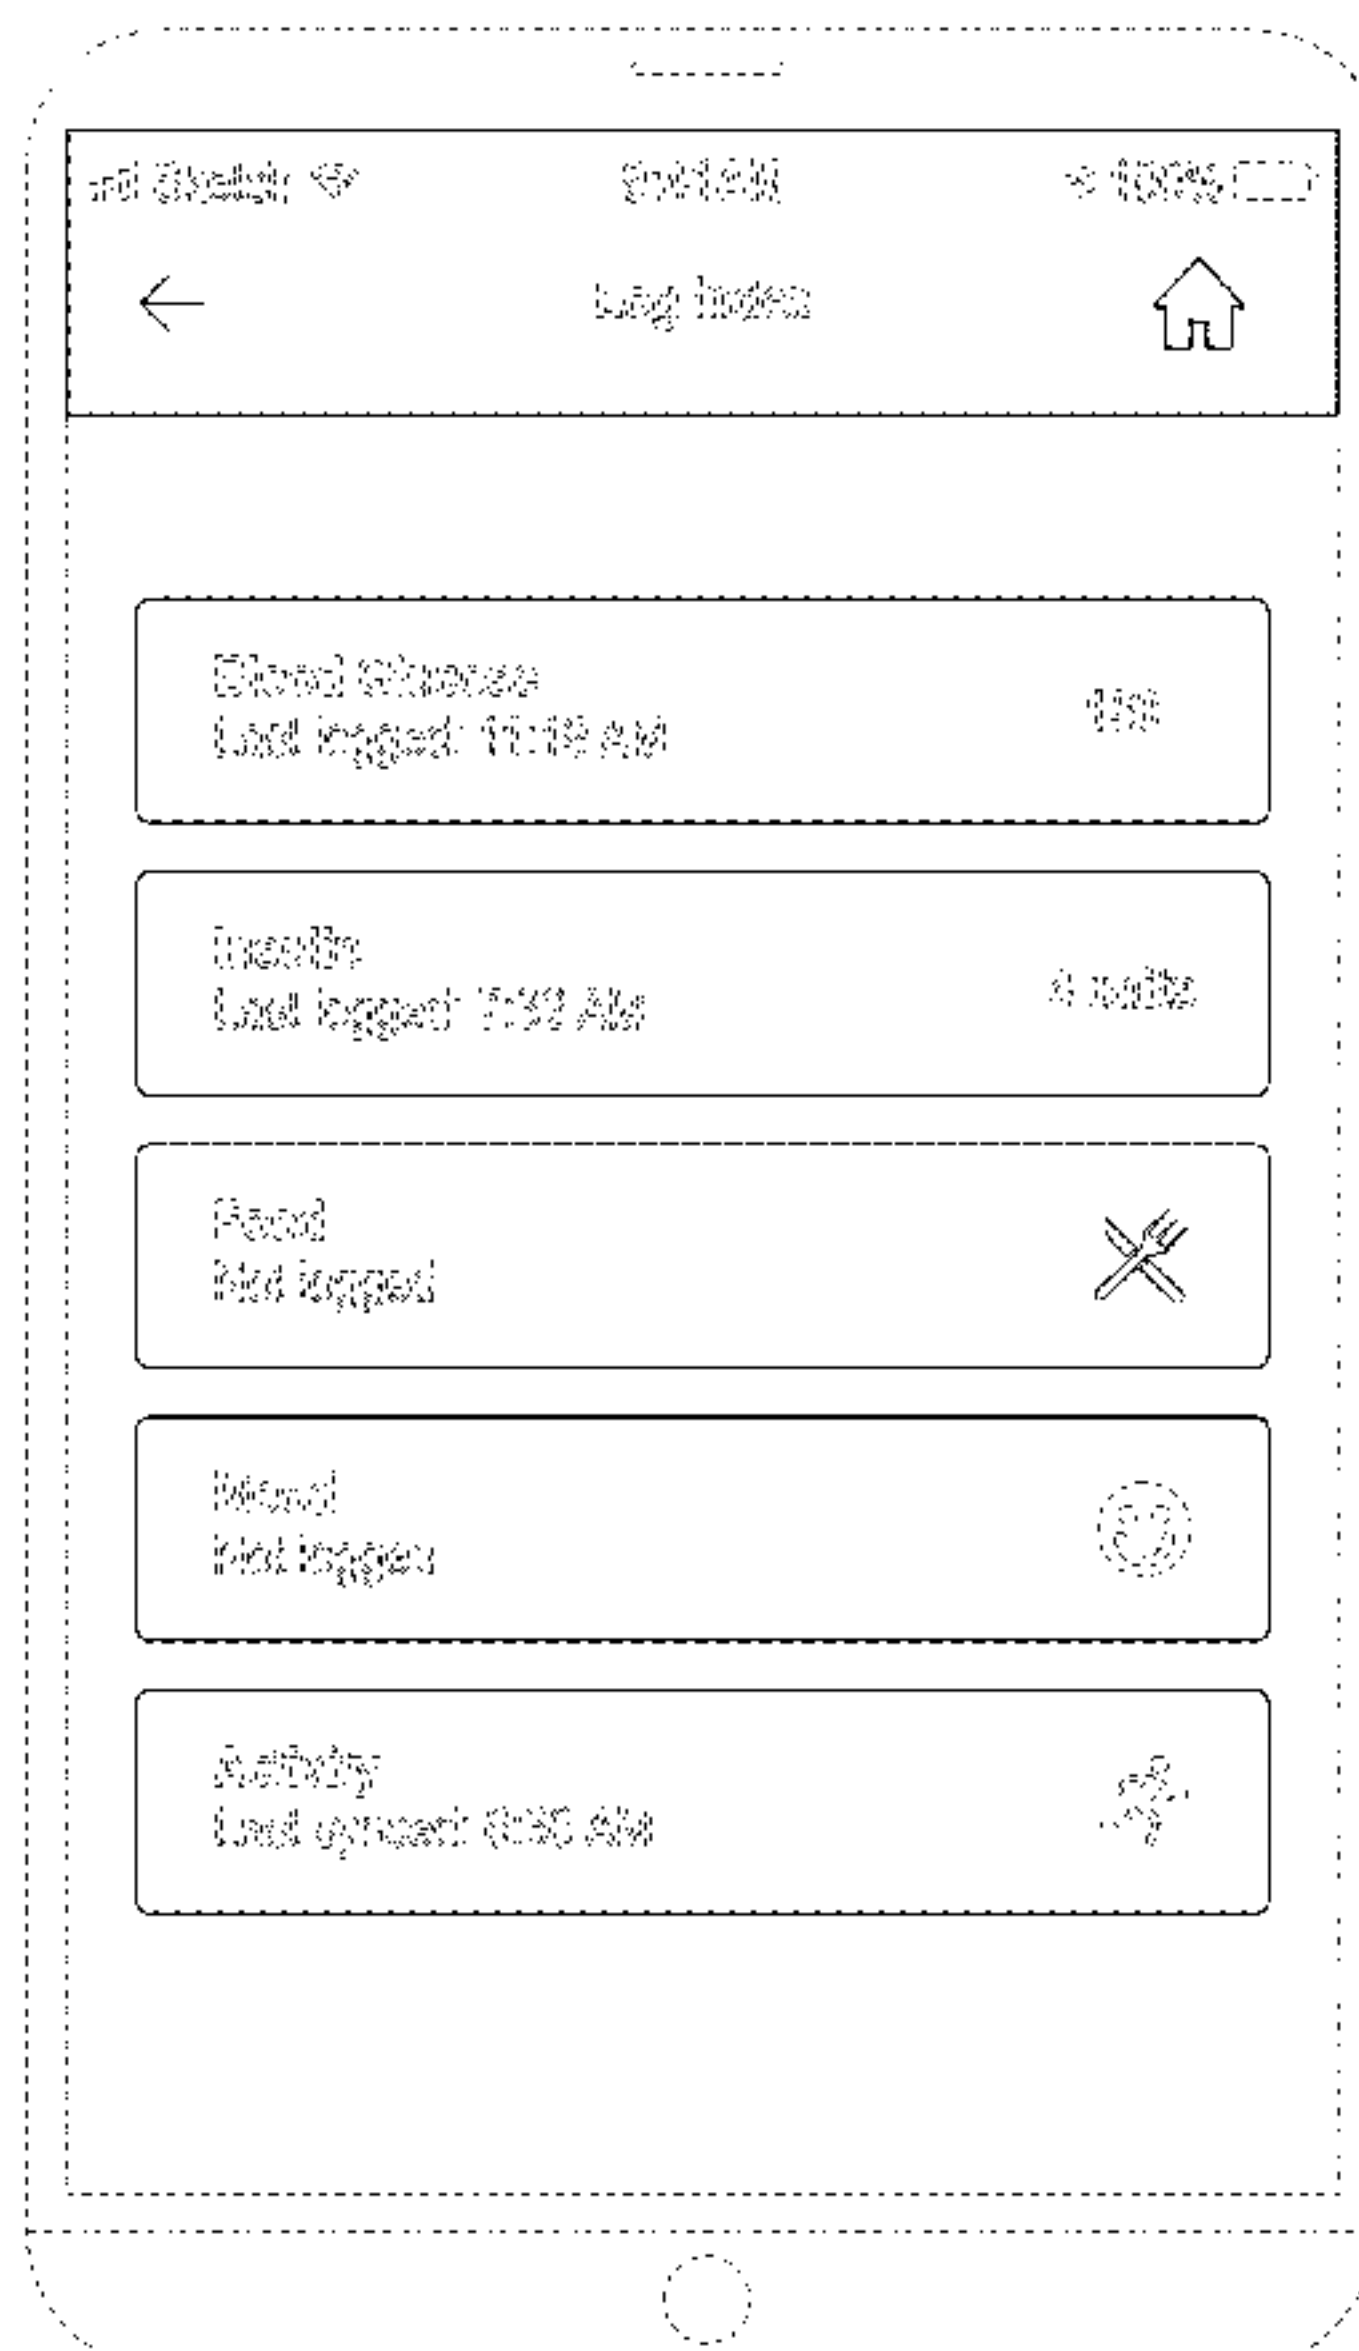

In the drawing, broken lines are used to illustrate portions of the display screen or portion thereof with a graphical user interface for an integrated disease management system that form no part of the claimed design. The outer dashed lines represent a mobile device on which the design can be implemented.
