The ornamental design for a display screen or portion thereof with graphical user interface, as shown and described.

See application file for complete search history.

DESCRIPTION

FIG. 1 is a front view of a display screen or portion thereof with graphical user interface showing our new design according to a first embodiment; and, FIG. 2 is a front view of display screen or portion thereof with graphical user interface showing our new design according to a second embodiment. The outer perimeter illustrated by a pair of dashed broken lines in the drawings illustrates a display screen or portion thereof and forms no part of the claimed design. The remaining broken lines in the drawings illustrate portions of the graphical user interface that form no part of the claimed design.
