(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface, substantially as shown and described.

DESCRIPTION

A portion of the disclosure of this patent document contains material which a claim for copyright is made. The copyright owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the US Patent and Trademark Office patent file or records, but reserves all other copyrights whatsoever.

FIG. 1 is a front view of a display screen or portion thereof with graphical user interface showing the first image in a sequence.

FIG. 2 is a front view of a display screen or portion thereof with graphical user interface showing the second image in a sequence; and,

FIG. 3 is a front view of a display screen or portion thereof with graphical user interface showing the third image in a sequence.

The appearance of the graphical user interface sequentially transitions between the images shown in FIGS. 1-3. The process or period in which one image transitions to another image forms no part of the claimed design.

The outermost broken lines in all figures illustrate a display screen or portion thereof and form no part of the claimed design. The remaining broken lines, including the dashed broken lines in all figures, and the lighter dashed broken lines and dotted broken lines appearing within the two
