(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of the first image in a sequence for a display screen with graphical user interface showing my new design;

FIG. 2 is a front view of the second image thereof;

FIG. 3 is a front view of third image thereof; and,

FIG. 4 is a front view of fourth image thereof.

The subject matter of this patent includes a process or period in which the image sequentially transitions between the images shown in FIGS. 1-4. This process or period forms no part of the claimed design.

The broken line at the periphery of the figure illustrates a display screen and forms no part of the claimed design. The portions of the display screen with graphical user interface colored over in gray illustrate features that form no part of the claimed design.
