DESCRIPTION

FIG. 1 is a front view of a display screen or portion thereof with a transitional graphical user interface, showing our new design and depicting a first image thereof.
 FIG. 2 is a front view of a display screen or portion thereof with a transitional graphical user interface, showing our new design and depicting a second image thereof.
 FIG. 3 is a front view of a display screen or portion thereof with a transitional graphical user interface, showing our new design and depicting a third image thereof.
 FIG. 4 is a front view of a display screen or portion thereof with a transitional graphical user interface, showing our new design and depicting a fourth image thereof.
 FIG. 5 is a front view of a display screen or portion thereof with a transitional graphical user interface, showing our new design and depicting a fifth image thereof.
 FIG. 6 is a front view of a display screen or portion thereof with a transitional graphical user interface, showing our new design and depicting a sixth image thereof.
 FIG. 7 is a front view of a display screen or portion thereof with a transitional graphical user interface, showing our new design and depicting a seventh image thereof.
 FIG. 8 is a front view of a display screen or portion thereof with a transitional graphical user interface, showing our new design and depicting an eighth image thereof; and,
 FIG. 9 is a front view of a display screen or portion thereof with a transitional graphical user interface, showing our new design and depicting a ninth image thereof.
 The appearance of the transitional graphical user interface sequentially transitions forwards from FIGS. 1-9 and backwards from FIGS. 9-1. The process or period in which one image transitions to another image forms no part of the claimed design.
