FIG. 1 is a front elevation view a “face shield with integral strap”, in a flat configuration showing my new design, the rear elevation view being the mirror image thereof;  
FIG. 2 is a top plan view thereof;  
FIG. 3 is a bottom plan view thereof;  
FIG. 4 is right side elevation view thereof; and,  
FIG. 5 is a left side elevation view thereof.  
The broken lines in FIGS. 1-5 are for illustrative purposes only, depicting aspects of the new design that are not claimed. The face shield thickness is too thin to properly illustrate the scale in FIG. 2-5, hence the edges are shown as broken lines to indicate that no claim is made to the thickness of the face shield.
