1 Claim, 2 Drawing Sheets

Love is never wasted. Men are what their Mothers make them. When you are a Mother you are never alone in your thoughts, a Mother always has to think twice, once for herself and once for her child. The Mother's heart is the child's schoolroom. Mothers hold their children's hands for a short while, but their hearts forever. Motherhood is near divinity, it is the highest and holiest service assumed by mankind. There is no way to be a perfect mother and a million ways to be a good one. The phrase "working Mother" is redundant. Mothers plant the seeds that grow into their child's wings. A Mother's arms are made of tenderness. Life is full of challenges for your child, make sure you give them practice early. A Mother understands what a child doesn't say. All that I am, I owe to my angel Mother. Don't handicap your child by making their legs easy. We must teach our kids to dream with their eyes wide open. The art of Mothering is not living to children. A Mother is she who can take the place of your Mother's face. Mothers know best. Life began with your Mother's face. Mothers love is the normal human being. Children are apt to live up to what you believe of them. It need not be acquired, it need not be deserved but a Mother's love is bliss. The future destiny of a child is always the work of the Mother. The heart of a Mother is a deep abyss, at the bottom of which you will always find forgiveness. Each day of our lives we make deposits in the memory banks of our children. If you want to keep their feet on the ground, put some responsibility on their shoulders. All that I am, I owe to my mother. If I know what love is it is because of you. A Mother's heart is a special place where her children are always home. Thank you Mother for your patience, guidance, love, and wisdom. Just do small things with great love.
