(57) **CLAIM**

The ornamental design for a multimedia communication terminal, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a multimedia communication terminal in accordance with the present invention; FIG. 2 is a second front perspective view thereof; FIG. 3 is a front view thereof; FIG. 4 is a rear perspective view thereof; and, FIG. 5 is a right side view thereof.

The broken lines shown in the figures that are immediately adjacent to the shaded areas and which define unshaded regions represent the bounds of the claim. All other broken lines, including the features within broken line boundaries, depict environment. The broken lines form no part of the claimed design.
