(57) **CLAIM**

The ornamental design for a “two-in-one virtual reality controller with mouse”, as shown and described.

DESCRIPTION

FIG. 1 is a top, front, and left side perspective view of a two-in-one virtual reality controller with mouse showing our new design;

FIG. 2 is a bottom, front, and right side perspective view of the two-in-one virtual reality controller with mouse;

FIG. 3 is a front view of the two-in-one virtual reality controller with mouse;

FIG. 4 is a rear view of the two-in-one virtual reality controller with mouse;

FIG. 5 is a left side view of the two-in-one virtual reality controller with mouse;

FIG. 6 is a right side view of the two-in-one virtual reality controller with mouse;

FIG. 7 is a top view of the two-in-one virtual reality controller with mouse;

FIG. 8 is a bottom view of the two-in-one virtual reality controller with mouse;

FIG. 9 is a top view of the two-in-one virtual reality controller with mouse as shown in FIG. 7 being used by a hand of a user; and,

FIG. 10 is a bottom, front, and right side perspective view of the two-in-one virtual reality controller with mouse as shown in FIG. 2 being used by the hand of the user.

The broken lines in FIGS. 9, and 10 showing a right hand depict environment only and form no part of the claim; while all other broken lines depict portions of the two-in-one virtual reality controller with mouse that form no part of the claimed design. It should be understood that the two-in-one virtual reality controller with mouse may also be used by a left hand of the user. In FIGS. 2 and 10, the unshaded portions between the broken lines and the solid lines form no part of the claimed design.
