(57) **CLAIM**

The ornamental design for a cylindrical trigger dampening absorber, as shown and described.

**DESCRIPTION**

FIG. 1 is a front perspective view of a cylindrical trigger dampening absorber showing our new design; FIG. 2 is right side view thereof, the left side view being a mirror image thereof; FIG. 3 is a front sectional view along line 3-3 of FIG. 2. FIG. 4 is another front perspective view in an alternative position; FIG. 5 is a right side view of the alternative position; FIG. 6 is a front sectional view along line 6-6 of FIG. 5; and, FIG. 7 is a left side view of the alternative position. FIG. 8 is a front perspective view of a second embodiment of the cylindrical trigger dampening absorber showing our new design; FIG. 9 is right side view thereof, the left side view being a mirror image thereof; and FIG. 10 is a front sectional view along line 10-10 of FIG. 9. FIG. 11 is a front perspective view of the second embodiment of the cylindrical trigger dampening absorber in an alternative position; FIG. 12 is a right side view of the alternative position second embodiment; FIG. 13 is a front sectional view along line 13-13 of FIG. 12; and, FIG. 14 is a left side view of the alternative position. The cylindrical trigger dampening absorber is shown with a symbolic break in its length, and it should be noted that the appearance of any portion of the cylindrical trigger dampening absorber between the break lines forms no part of the claimed design. The broken lines showing the trigger mechanism and frame of a gun are for the purpose of illustrating environmental structure and form no part of the claimed design.
