FIG. 1 is a first image in a first sequence for a display screen with an animated graphical user interface for educational financial aid cash flow tracking showing a first embodiment of our new design;

FIG. 2 is second image of the first sequence showing the first embodiment of our new design;

FIG. 3 is a first image in a second sequence for a display screen with an animated graphical user interface for educational financial aid cash flow tracking showing a second embodiment of our new design; and,

FIG. 4 is second image of the second sequence showing the second embodiment of our new design.

In the first sequence, the appearance of the animated images transitions between the images shown in FIGS. 1 and 2.

In the second sequence, the appearance of the animated images transitions between the images shown in FIGS. 3 and 4.

The process or period in which one image transitions to another image forms no part of the claimed design.

The outer-most, broken line rectangle representing the display screen or portion thereof, and all other broken lines
