(57) **CLAIM**

The ornamental design for a collapsible support structure for a removable electronic device, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a novel support structure for an electronic device having a touch screen in an open orientation showing our new design; FIG. 2 is a front perspective view thereof; FIG. 3 is a rear perspective view thereof; FIG. 4 is a rear perspective view thereof; FIG. 5 is a top perspective view of a novel support structure for an electronic device having a touch screen in a closed orientation; FIG. 6 is a side perspective view thereof; FIG. 7 is a partial view of the base having a pivotable handle in an open configuration; FIG. 8 is a partial view of the base having a pivotable handle in a closed configuration; and, FIG. 9 is a partial view of a novel support structure for an electronic device having a touch screen in a closed orientation with a barrier member connected to the corners of the mounting bracket. The subject matter delineated in broken lines form no part of the claimed design.
