(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface for depicting regional performance of providers, as shown and described.

DESCRIPTION

The Applicant of the present application owns the following U.S. Design Patent Applications that were filed on Apr. 26, 2019 and which are each herein incorporated by reference in their respective entireties:

U.S. Design patent application Ser. No. 29/689,065, entitled Graphical User Interface for a Display Depicting Product Restrictiveness Across Programs;

U.S. Design patent application Ser. No. 29/689,076, entitled Graphical User Interface for a Display Depicting Product Restrictiveness Across Payers; and

U.S. Design patent application Ser. No. 29/689,077, entitled Graphical User Interface for a Display Depicting Selection Filters.

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 shows a first embodiment of a display screen or portion thereof with graphical user interface for depicting regional performance of providers;

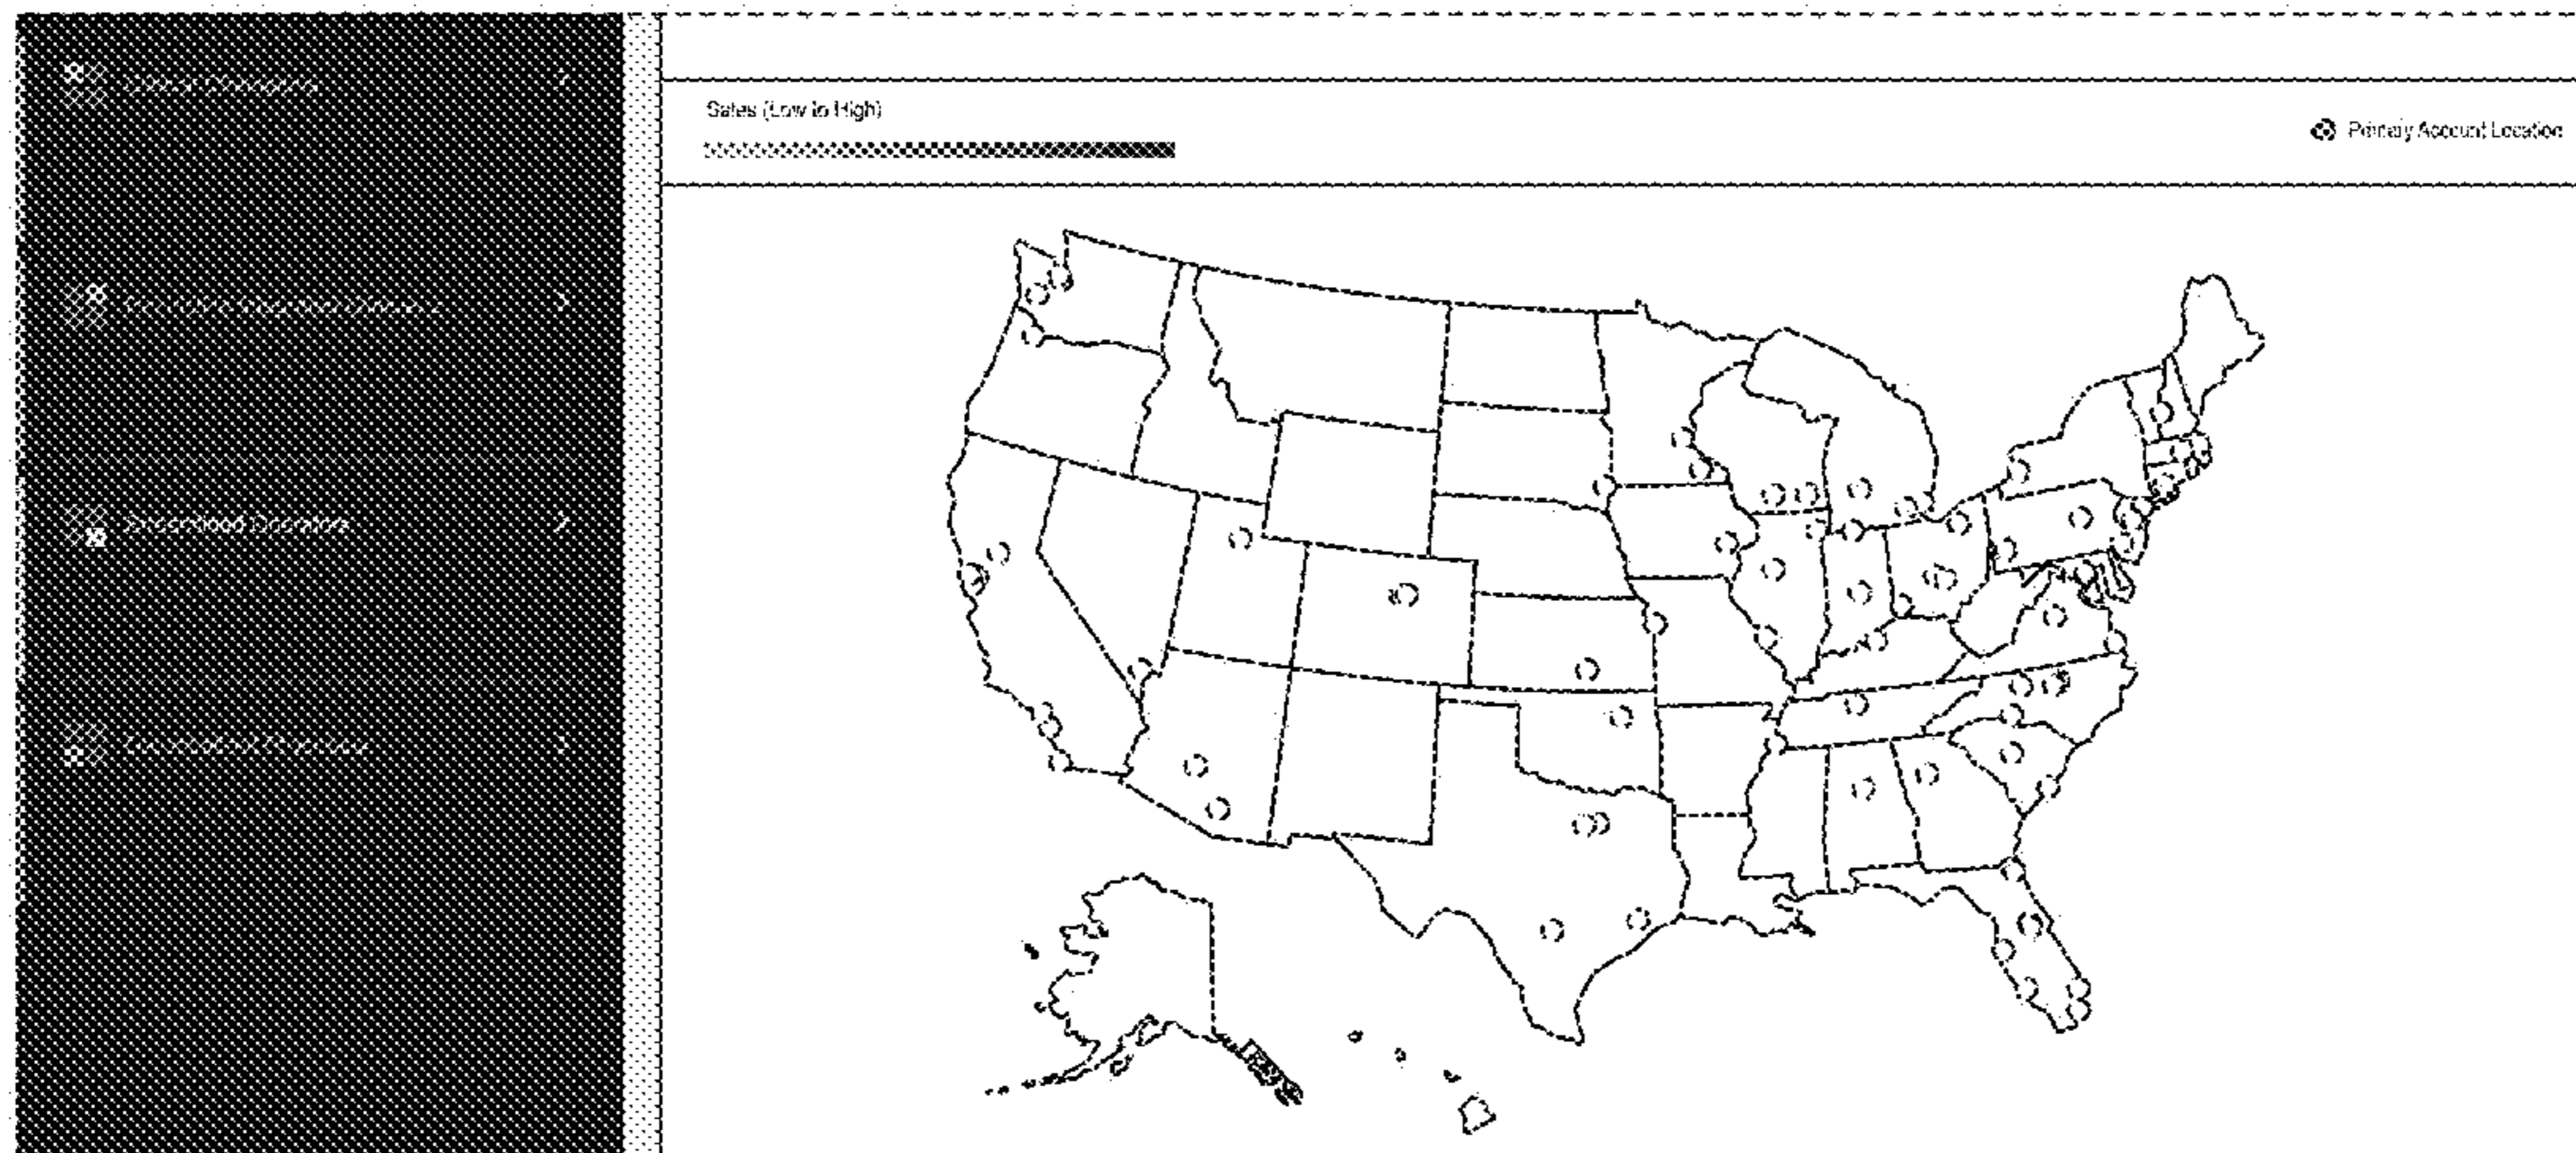

FIG. 2 shows a second embodiment a display screen or portion thereof with graphical user interface for depicting regional performance of providers; and,

FIG. 3 shows a third embodiment of a display screen or portion thereof with graphical user interface for depicting regional performance of providers.

The outermost broken line in each figure represents a display screen or portion thereof, which forms no part of the claimed design. The other broken lines within the outermost broken line represent portions of the graphical user interface that form no part of the claimed design.

The grayscale contrast in FIG. 2 and the shading in FIG. 3 represents a contrast in appearance.
