(57) **CLAIM**

The ornamental design for a display screen or portion thereof of a remote control device with graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a front elevational view of a remote control device with a display screen with graphical user interface showing our new design; and, FIG. 2 is an enlarged, isolated front view of the display screen thereof.

The innermost broken line rectangle shown in FIG. 1 and the corresponding broken-line rectangle shown in FIG. 2 illustrate a display screen and form no part of the claimed design. The remaining broken lines shown in FIG. 1 illustrate portions of a remote control device and form no part of the claimed design.
