(57) **CLAIM**

The ornamental design for a display screen with transitional graphical user interface, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of a display screen with transitional graphical user interface showing a first image in a sequence according to a first embodiment the claimed design;

FIG. 2 is a second image thereof;

FIG. 3 is a front view of a display screen with transitional graphical user interface showing a first image in a sequence according to a second embodiment the claimed design; and, FIG. 4 is a second image thereof.

The appearance of the transition is sequential from FIG. 1 through FIG. 2 in the first embodiment and from FIG. 3 through FIG. 4 in the second embodiment. The process or period in which an image transitions to another image forms no part of the claimed design.

The outermost broken line illustrates the display screen and a boundary and the remaining broken lines illustrate portions of the transitional graphical user interface. None of the broken lines form part of the claimed design.
