(57) **CLAIM**

I claim the ornamental design for a bottle, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a bottle showing the new design;
 FIG. 2 is a rear elevational view thereof;
 FIG. 3 is a top plan view thereof;
 FIG. 4 is a bottom plan view thereof;
 FIG. 5 is a right side elevational view thereof;
 FIG. 6 is a left side elevational view thereof;
 FIG. 7 is a perspective view of the front, top, and right sides thereof;
 FIG. 8 is a cross-sectional view of the bottle taken along section line 8-8 of FIG. 1; and,
 FIG. 9 is a cross-sectional view of the bottle taken along section line 9-9 of FIG. 5.

The bottle of this design is entirely transparent and the oblique line shading shown in the drawings is to indicate this transparency. The opposing side details of the bottle as they would be seen through the transparent sidewall material have been omitted for ease of understanding. The thin lines shown in the drawings indicate the three-dimensional surface shape of the bottle. The broken lines shown in the drawings indicate portions of the bottle that form no part of the claimed design.

1 Claim, 8 Drawing Sheets
