(57) **CLAIM**

The ornamental design for a display screen with graphical user interface for communicating health-related messages regarding ventilated patients, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen with graphical user interface for communicating health-related messages regarding ventilated patients; and, FIG. 2 is a front view of a second embodiment thereof. The broken line drawings of a display screen, text, and graphical user interface elements is included for the purpose of illustrating portions of the article and the display screen form no part of the claimed design.

1 Claim, 2 Drawing Sheets
