(57) **CLAIM**

The ornamental design for a display screen with graphical user interface for communicating health-related messages regarding ventilated patients, as shown and described.

DESCRIPTION

The sole FIGURE is a front view of a display screen with graphical user interface for communicating health-related messages regarding ventilated patients. The broken line drawings of a display screen, text, and graphical user interface elements is included for the purpose of illustrating portions of the article and the display screen form no part of the claimed design.

1 Claim, 1 Drawing Sheet
