(57) **CLAIM**

The ornamental design for a display screen with a graphic user interface for an equipment management system, as shown and described.

DESCRIPTION

The file of this patent contains at least one drawing executed in color. Copies of this patent with color drawing(s)/photographs(s) will be provided by the Office upon request and payment of the necessary fee.
The FIGURE is a front view of a display screen for a graphic user interface for an equipment management system showing our new design.
In the drawing, the broken lines showing the display screen and the graphics associated with the graphic user interface form no part of the claimed design.
