(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of a display screen or portion thereof with graphical user interface showing an image of a first embodiment thereof;

FIG. 2 is a front view of an image of a second embodiment thereof; and,

FIG. 3 is a front view of an image of a third embodiment thereof.

The broken lines showing of an electronic device and a display screen form no part of the claimed design. The dash-dot-dash line adjacent the dark background defines the bounds of the claimed design and form no part thereof. The black background within the boundary line is included to accurately depict the ornamental features of the claimed design and forms no part thereof.
