The description of a “first position” and a “second position” in the above embodiments indicates first and second position in relation to movement of the icon(s) shown in each embodiment, where the appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-2 and 3-4, respectively. The process or period in which one image transitions to another image forms no part of the claimed design.

The broken lines in the accompanying drawings illustrate environmental structure that forms no part of the claimed design.
