US00D940165S

(12) United States Design Patent

Huber

(10) Patent No.: US D940,165 S
(45) Date of Patent: ** Jan. 4, 2022

(54) **MICROSCOPE DISPLAY SCREEN WITH GRAPHICAL USER INTERFACE**

(71) Applicant: **Leica Microsystems CMS GmbH**, Wetzlar (DE)

(72) Inventor: **Stefan Huber**, Schoenau (DE)

(73) Assignee: **Leica Microsystems CMS GmbH**, Wetzlar (DE)

(**) Term: **15 Years**

(21) Appl. No.: **29/782,420**

(22) Filed: **May 6, 2021**

Related U.S. Application Data

(62) Division of application No. 29/664,036, filed on Sep. 20, 2018, now Pat. No. Des. 924,247.

(57) **CLAIM**

The ornamental design for a microscope display screen with graphical user interface, as shown and described.

DESCRIPTION

FIG. **1** shows a graphical user interface element on a display screen of a microscope system in a first position at the edge of the display screen according to an embodiment;
FIG. **2** shows a graphical user interface element on the display screen of the microscope system in a second position at the edge of the display screen according to the embodiment of FIG. **1**; and,
FIG. **3** shows a graphical user interface element on the display screen of the microscope system in a third position at the edge of the display screen according to the embodiment of FIG. **1**.
The description of a "first position," a "second position," and a "third position" in the above embodiments indicates first, second, and third position in relation to movement of the icon(s) shown in each embodiment, where the appearance of the transitional image sequentially transitions between the images shown in FIGS. **1-3**. The process or period in which one image transitions to another image forms no part of the claimed design.
The broken lines in the accompanying drawings illustrate environmental structure that forms no part of the claimed design.
