DESCRIPTION

FIG. 1 is a front view of first image in the sequence of a display screen or portion thereof with graphical user interface for interactive guidelines for multidisciplinary cancer treatment planning showing our new design; FIG. 2 is a front view of a second image thereof; FIG. 3 is a front view of a third image thereof; FIG. 4 is a front view of a fourth image thereof; FIG. 5 is a front view of a fifth image thereof; and, FIG. 6 is a front view of a sixth image thereof. The outermost broken line rectangular indicates a boundary of a display screen or a portion thereof and forms no part of the claimed design. The broken lined text showing the display screen, patterns, and characters form no part of the claimed design. The appearance of the animated images sequentially transition from FIG. 1 to FIG. 6. The process or period in which one image transitions to another forms no part of the claimed design.
