(57) **CLAIM**

The ornamental design for a control board display panel for machine tool with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first embodiment of a control board display panel for machine tool with graphical user interface showing our new design; FIG. 2 is an enlarged view of a display part thereof; FIG. 3 is a front view of a second embodiment of a control board display panel for machine tool with graphical user interface showing our new design; and, FIG. 4 is an enlarged view of a display part thereof. The broken lined rectangle that is immediate outside of the display part represents the boundary of the display panel. The broken lines outside of the display panel illustrate a machine tool and form no part of the claimed design. The broken lines that illustrate the display panel and portions of the graphical user interface form no part of the claimed design.
