(57) **CLAIM**

The ornamental design for a display screen portion with graphical user interface, as shown and described.

DESCRIPTION

The file of this patent contains at least one drawing executed in color. Copies of this patent with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 illustrates a front view of a display screen portion with graphical user interface depicting a first embodiment of the claimed design;

FIG. 2 illustrates a front view of a display screen portion with graphical user interface depicting a second embodiment of the claimed design;

FIG. 3 illustrates a front view of a display screen portion with graphical user interface depicting a third embodiment of the claimed design;

FIG. 4 illustrates a front view of a display screen portion with graphical user interface depicting a fourth embodiment of the claimed design;

FIG. 5 illustrates a front view of a display screen portion with graphical user interface depicting a fifth embodiment of the claimed design;

FIG. 6 illustrates a front view of a display screen portion with graphical user interface depicting a sixth embodiment of the claimed design;

FIG. 7 illustrates a front view of a display screen portion with graphical user interface a seventh embodiment of the claimed design;

FIG. 8 illustrates a front view of a display screen portion with graphical user interface depicting an eighth embodiment of the claimed design;

(Continued)

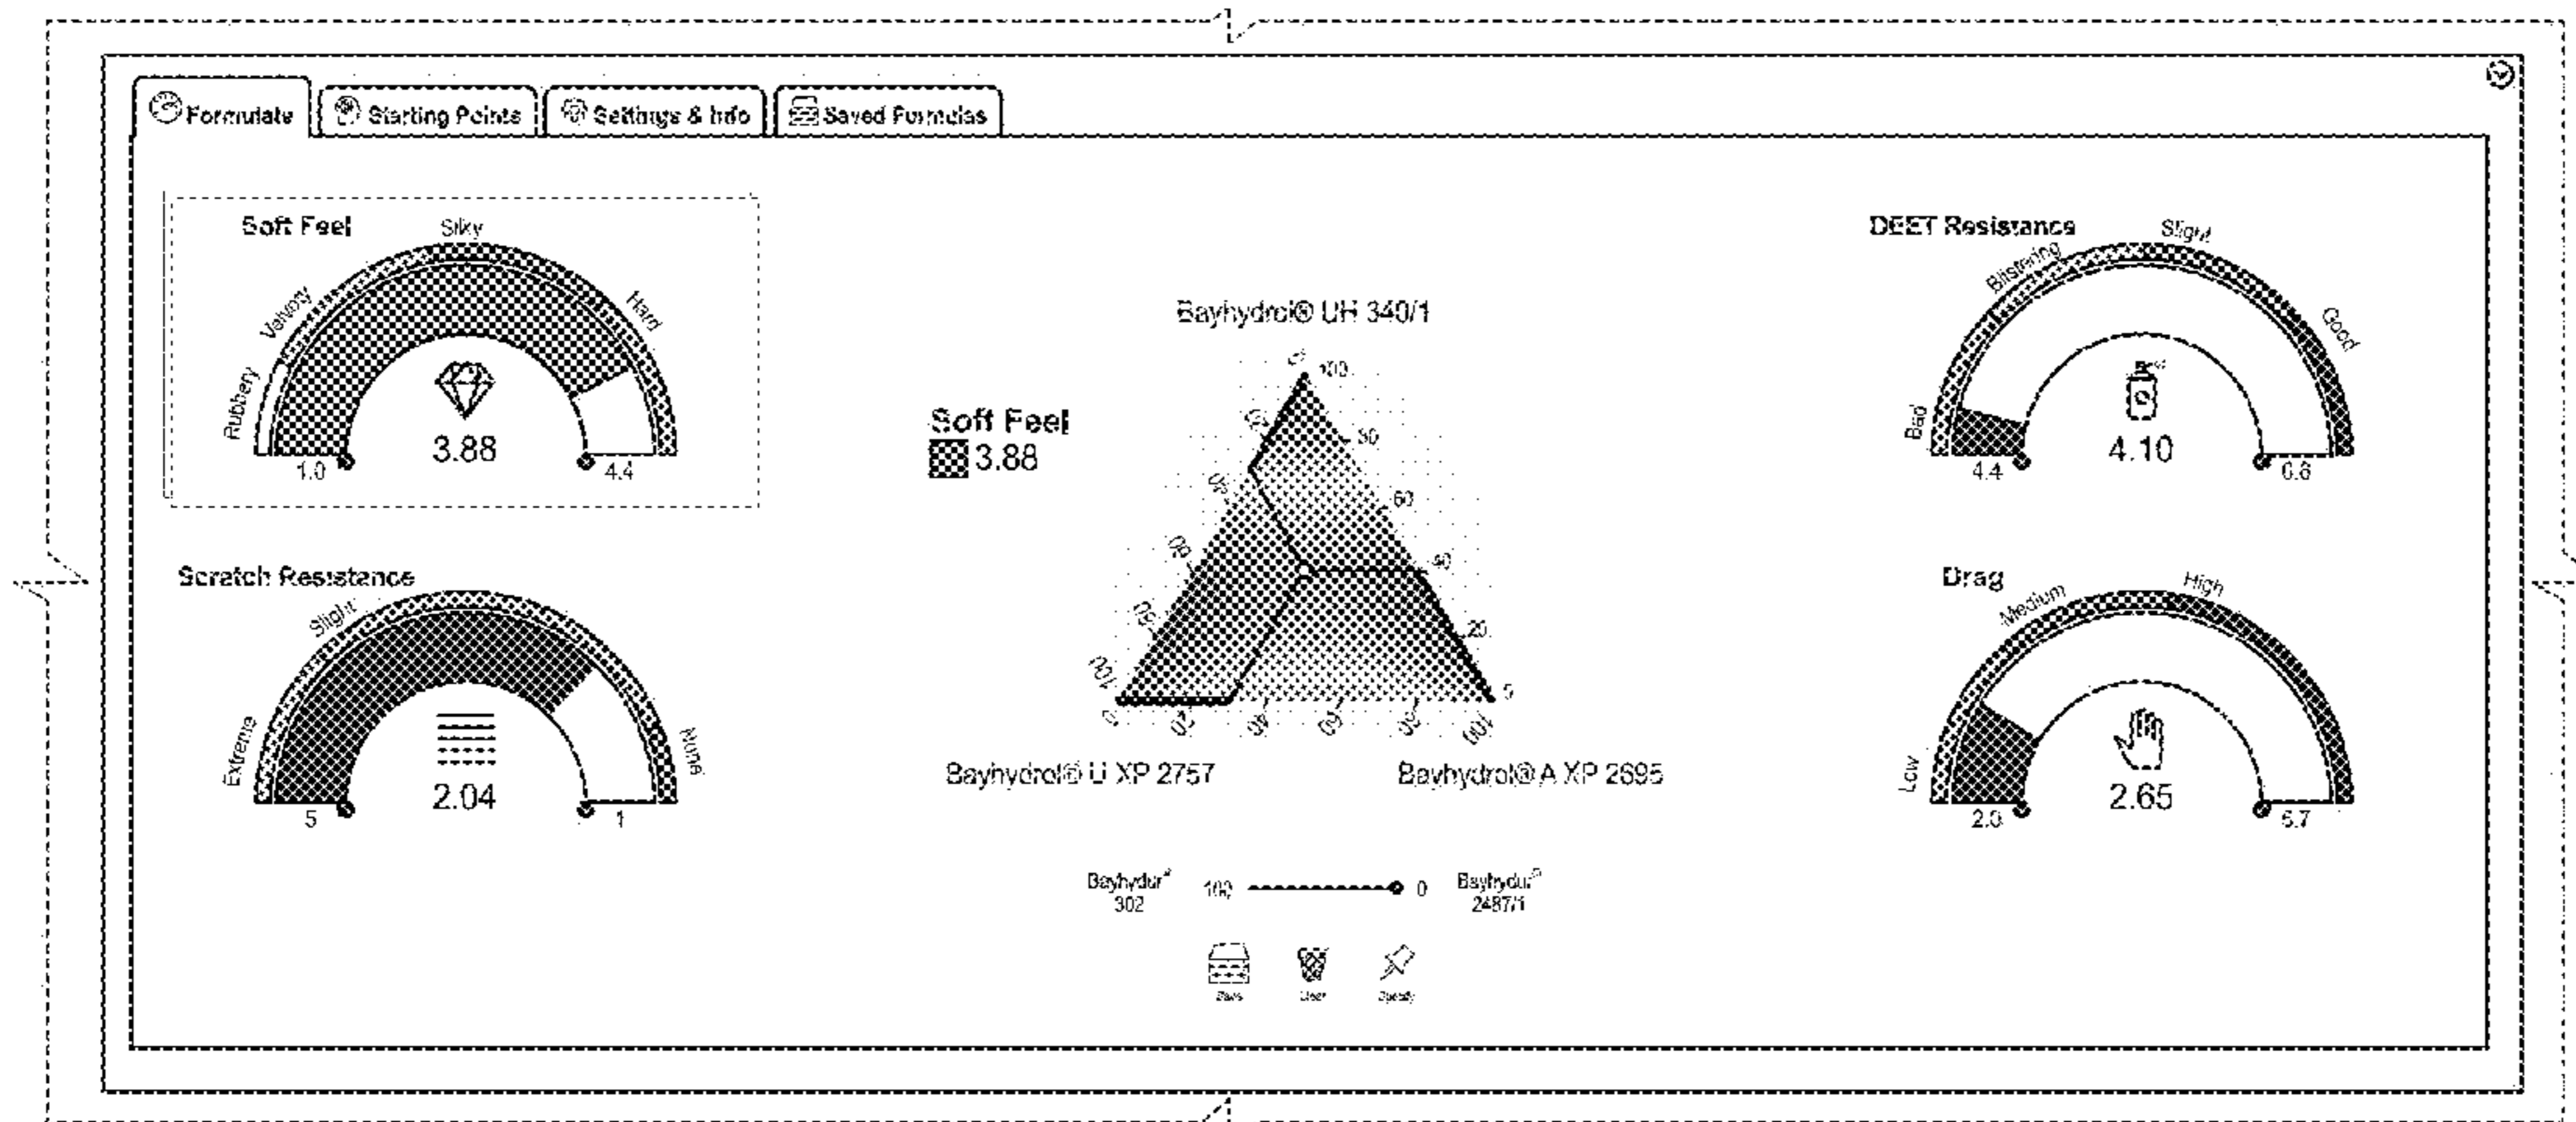

FIG. 9 illustrates a front view of a display screen portion with graphical user interface a ninth embodiment of the claimed design;
 FIG. 10 illustrates a front view of a display screen portion with graphical user interface depicting a tenth embodiment of the claimed design;
 FIG. 11 illustrates a front view of a display screen portion with graphical user interface depicting an eleventh embodiment of the claimed design;
 FIG. 12 illustrates a front view of a display screen portion with graphical user interface depicting a twelfth embodiment of the claimed design;
 FIG. 13 illustrates a front view of a display screen portion with graphical user interface depicting a thirteenth embodiment of the claimed design;
 FIG. 14 illustrates a front view of a display screen portion with graphical user interface depicting a fourteenth embodiment of the claimed design;
 FIG. 15 illustrates a front view of a display screen portion with graphical user interface depicting a fifteenth embodiment of the claimed design;
 FIG. 16 illustrates a front view of a display screen portion with graphical user interface depicting a sixteenth embodiment of the claimed design;
 FIG. 17 illustrates a front view of a display screen portion with graphical user interface depicting a seventeenth embodiment of the claimed design;
 FIG. 18 illustrates a front view of a display screen portion with graphical user interface depicting an eighteenth embodiment of the claimed design;
 FIG. 19 illustrates a front view of a display screen portion with graphical user interface depicting a nineteenth embodiment of the claimed design; and,
 FIG. 20 illustrates a front view of a display screen portion with graphical user interface depicting a twentieth embodiment of the claimed design.

The outermost broken-line rectangle illustrates a portion of a display screen and forms no part of the claimed design. The remaining broken lines illustrate portions of the graphical user interface and form no part of the claimed design.
