(57) **CLAIM**

The ornamental design for a display panel or screen or a portion thereof with an animated graphical user interface, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawings will be provided by the Office upon request and payment of necessary fee.

FIG. 1 is a front view of a first embodiment of a display panel or screen or portion thereof with a first image of an animated graphical user interface showing my new design; and

FIG. 2 is a front view thereof with a second image.

FIG. 3 is a partially enlarged front view thereof with the first image along the lines 3-3 and 3'-3' of FIG. 1; and FIG. 4 is a partially enlarged front view thereof with the second image along the lines 4-4 and 4'-4' of FIG. 2.

FIG. 5 is a front view of a second embodiment of a display panel or screen or a portion thereof with a first image of an animated graphical user interface showing my new design; and,

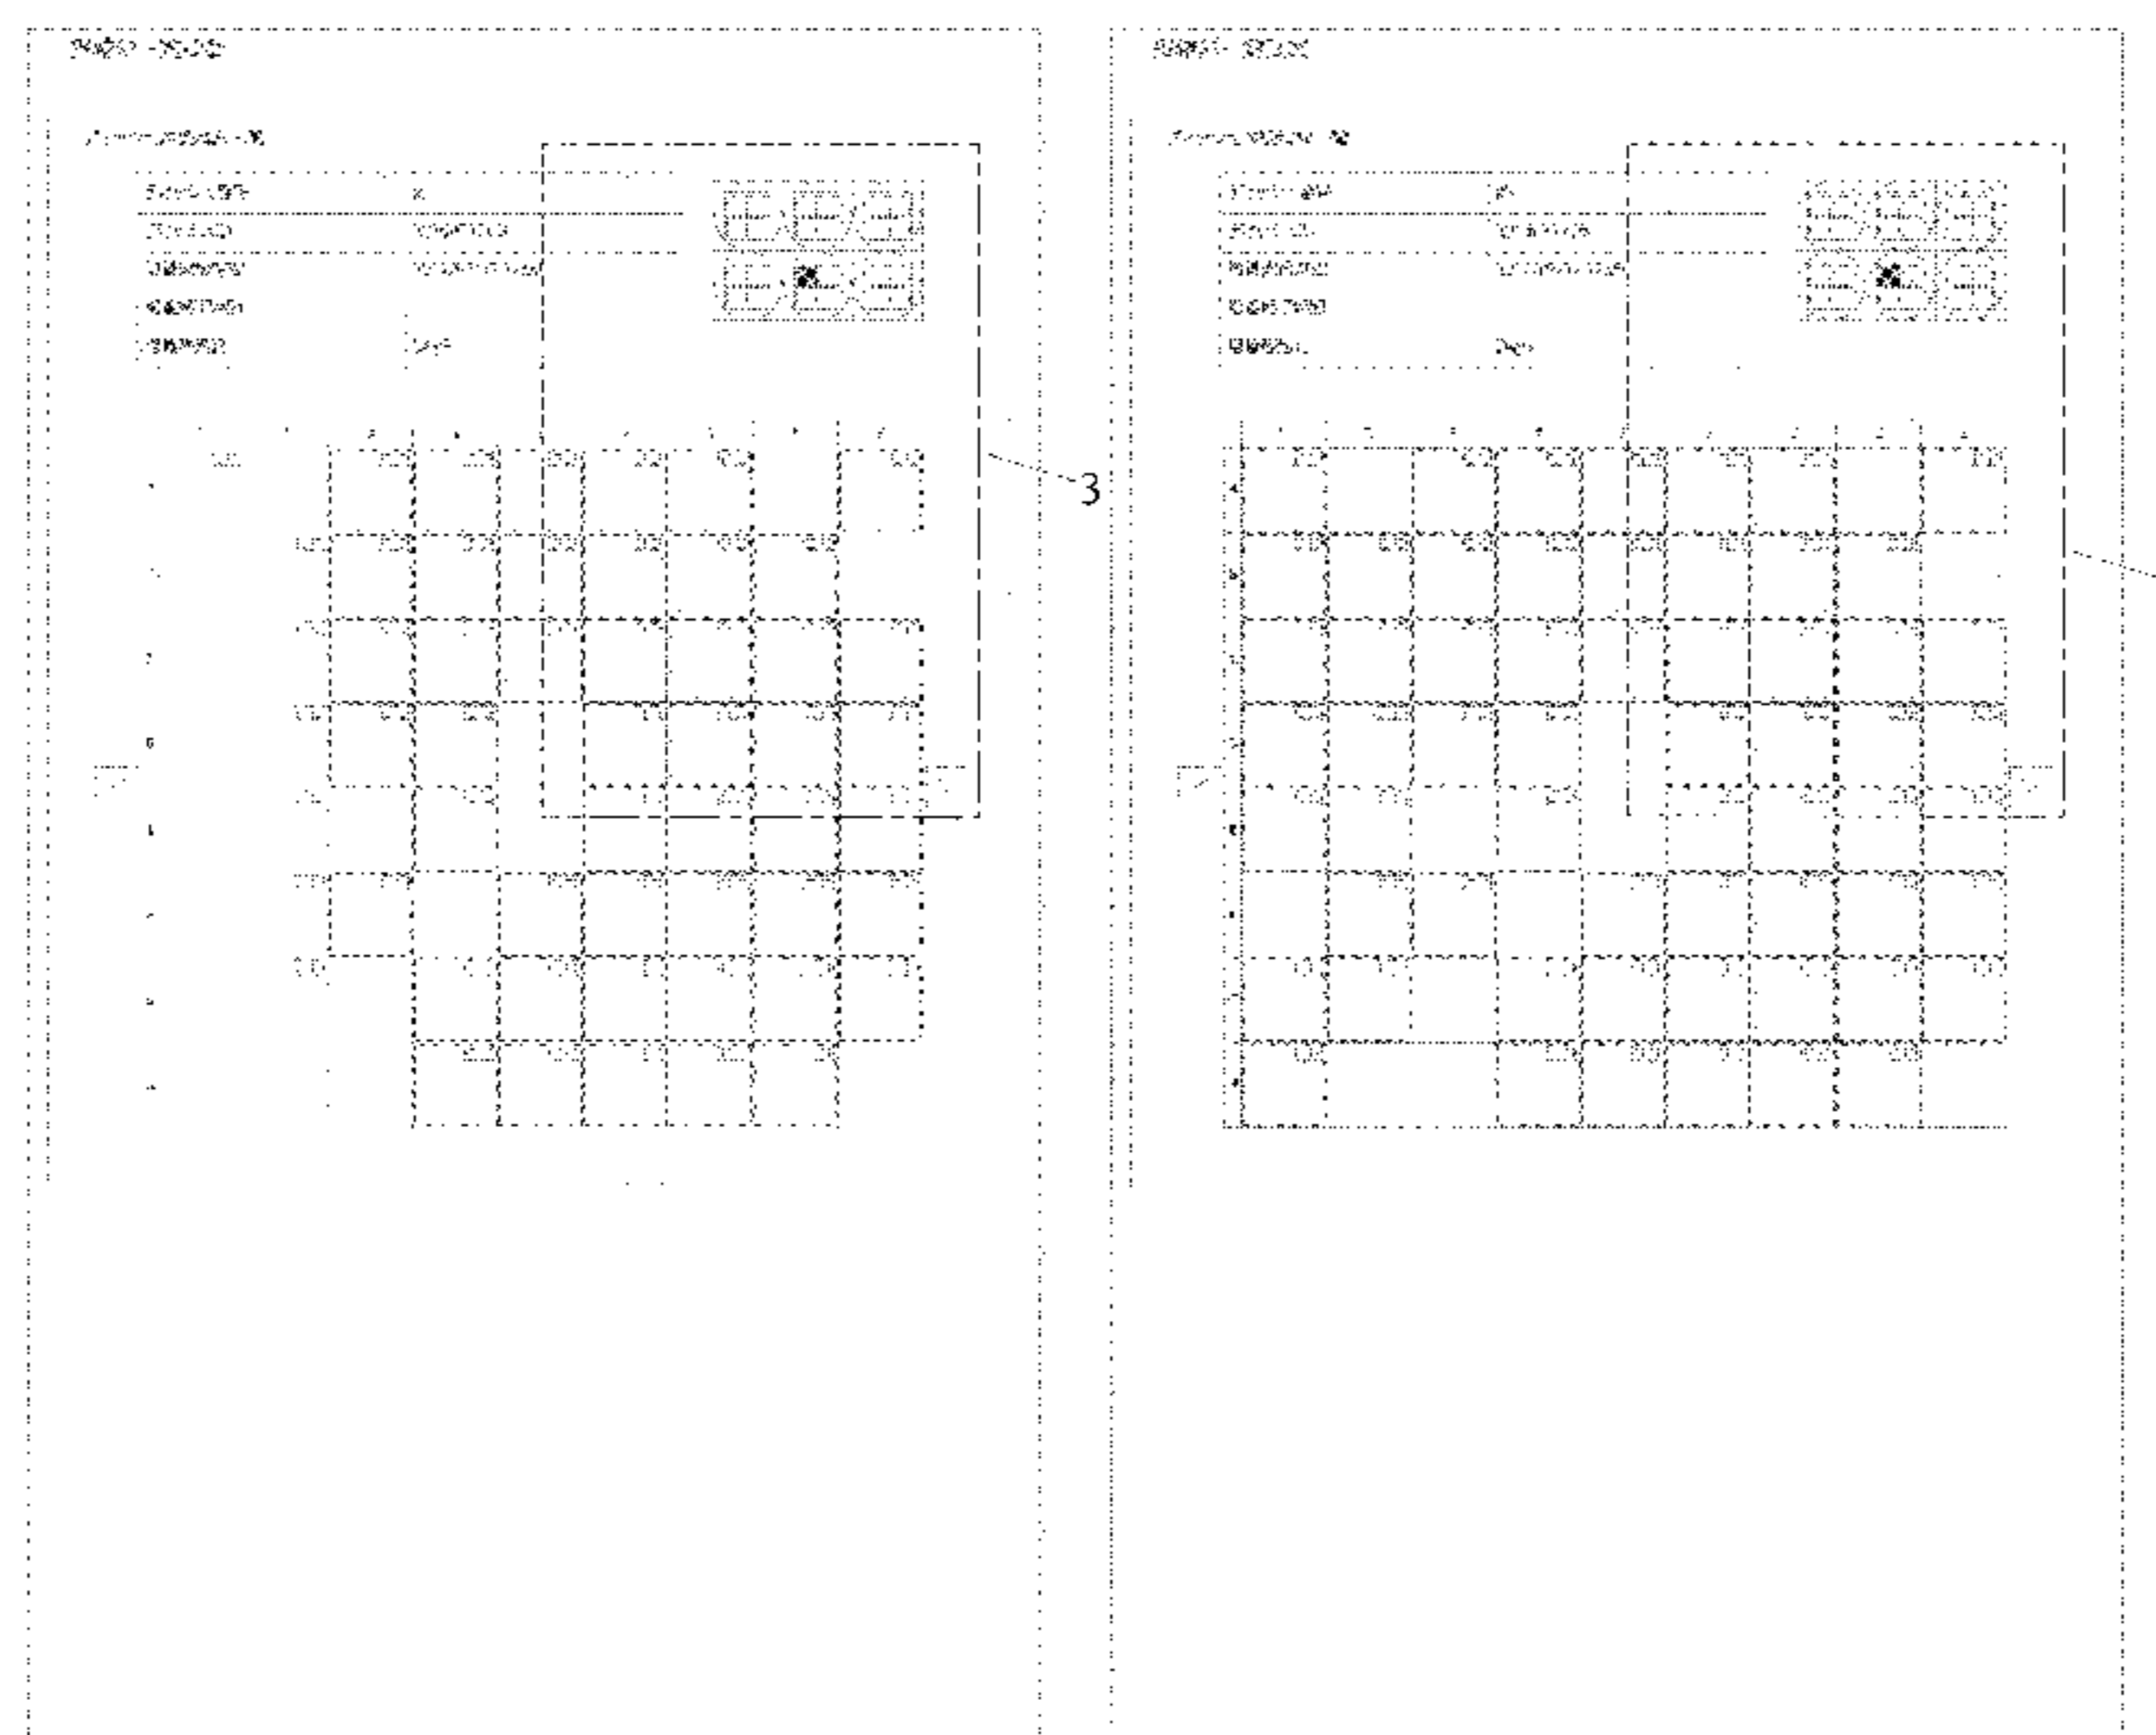

FIG. 6 is a front view thereof with a second image.

The appearance of an image sequentially transitions between FIGS. 1 and 2, FIGS. 3 and 4, and FIGS. 5 and 6 respectively. The process or period in which an image transitions to another forms no part of the claimed design.

The outer broken line illustrates a display panel or screen and the remaining broken lines illustrate portions of the animated graphical user interface form no part of the claimed design.

The dot-dash broken lines in FIGS. 1 and 2 enclosing enlargement portions of the design form no part of the claimed design.
