(57) **CLAIM**

The ornamental design for the display screen with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image of a sequence of a display screen with animated graphical user interface showing our new design;
 FIG. 2 is a front view of a second image thereof;
 FIG. 3 is a front view of a third image thereof; and,
 FIG. 4 is a front view of a fourth image thereof.
 The appearance of the display screen with animated graphical user interface sequentially transitions between the images shown in FIGS. 1-5. The process or period in which an image transitions from one image to another image forms no part of the claimed design.
 The broken lines of uneven length show the display screen and form no part of the claimed design. The broken lines of short even length depict portions of the animated graphical user interface that form no part of the claimed design.
 The grayscale shading illustrates tonal contrast.
