(57) **CLAIM**

We claim the ornamental design for a telemedicine caregiver robot, as shown and described.

**DESCRIPTION**

FIG. 1 is a front perspective view of a telemedicine caregiver robot according to a first embodiment of my new design;

FIG. 2 is a front view of the robot according to a first embodiment of my new design;

FIG. 3 is a rear view of the robot according to a first embodiment of my new design

FIG. 4 is a right-side view of the robot according to a first embodiment of my new design, the left side being a mirror image thereof;

FIG. 5 is a top view of the robot according to a first embodiment of my new design;

FIG. 6 is a bottom view of the robot according to a first embodiment of my new design;

FIG. 7 is a rear perspective view of the robot according to a first embodiment of my new design;

FIG. 8 is a front perspective view of a telemedicine caregiver robot according to a second embodiment of my new design;

FIG. 9 is a front view of a robot according to a second embodiment of my new design;

FIG. 10 is a rear view of a robot according to a second embodiment of my new design;

FIG. 11 is a right-side view of a robot according to a second embodiment of my new design, the left side being a mirror image thereof;

FIG. 12 is a top view of a robot according to a second embodiment of my new design;

FIG. 13 is a bottom view of a robot according to a second embodiment of my new design;

FIG. 14 is a rear perspective view of a robot according to a second embodiment of my new design;

(Continued)

FIG. 15 is a front perspective view of a telemedicine caregiver robot in accordance with a third embodiment of my new design;

FIG. 16 is a front view of a robot according to a third embodiment of my new design;

FIG. 17 is a rear view of a robot according to a third embodiment of my new design;

FIG. 18 is a right-side view of a robot according to a third embodiment of my new design, the left side being a mirror image thereof;

FIG. 19 is a top view of a robot according to a third embodiment of my new design;

FIG. 20 is a bottom view of a robot according to a third embodiment of my new design; and,

FIG. 21 is a rear perspective view of a robot according to a third embodiment of my new design.

**1 Claim, 20 Drawing Sheets**
