The FIGURE is a front view of an electronic device with a display screen showing the claimed design.

The inner dash-dot-dash broken-line rectangle in the FIGURE shows the perimeter of a display screen and forms no part of the claimed design. The remaining dash-dot-dash broken lines in the FIGURE show portions of an electronic device and form no part of the claimed design.

The dash-dash broken lines in the FIGURE illustrate portions of the graphical user interface that form no part of the claimed design.

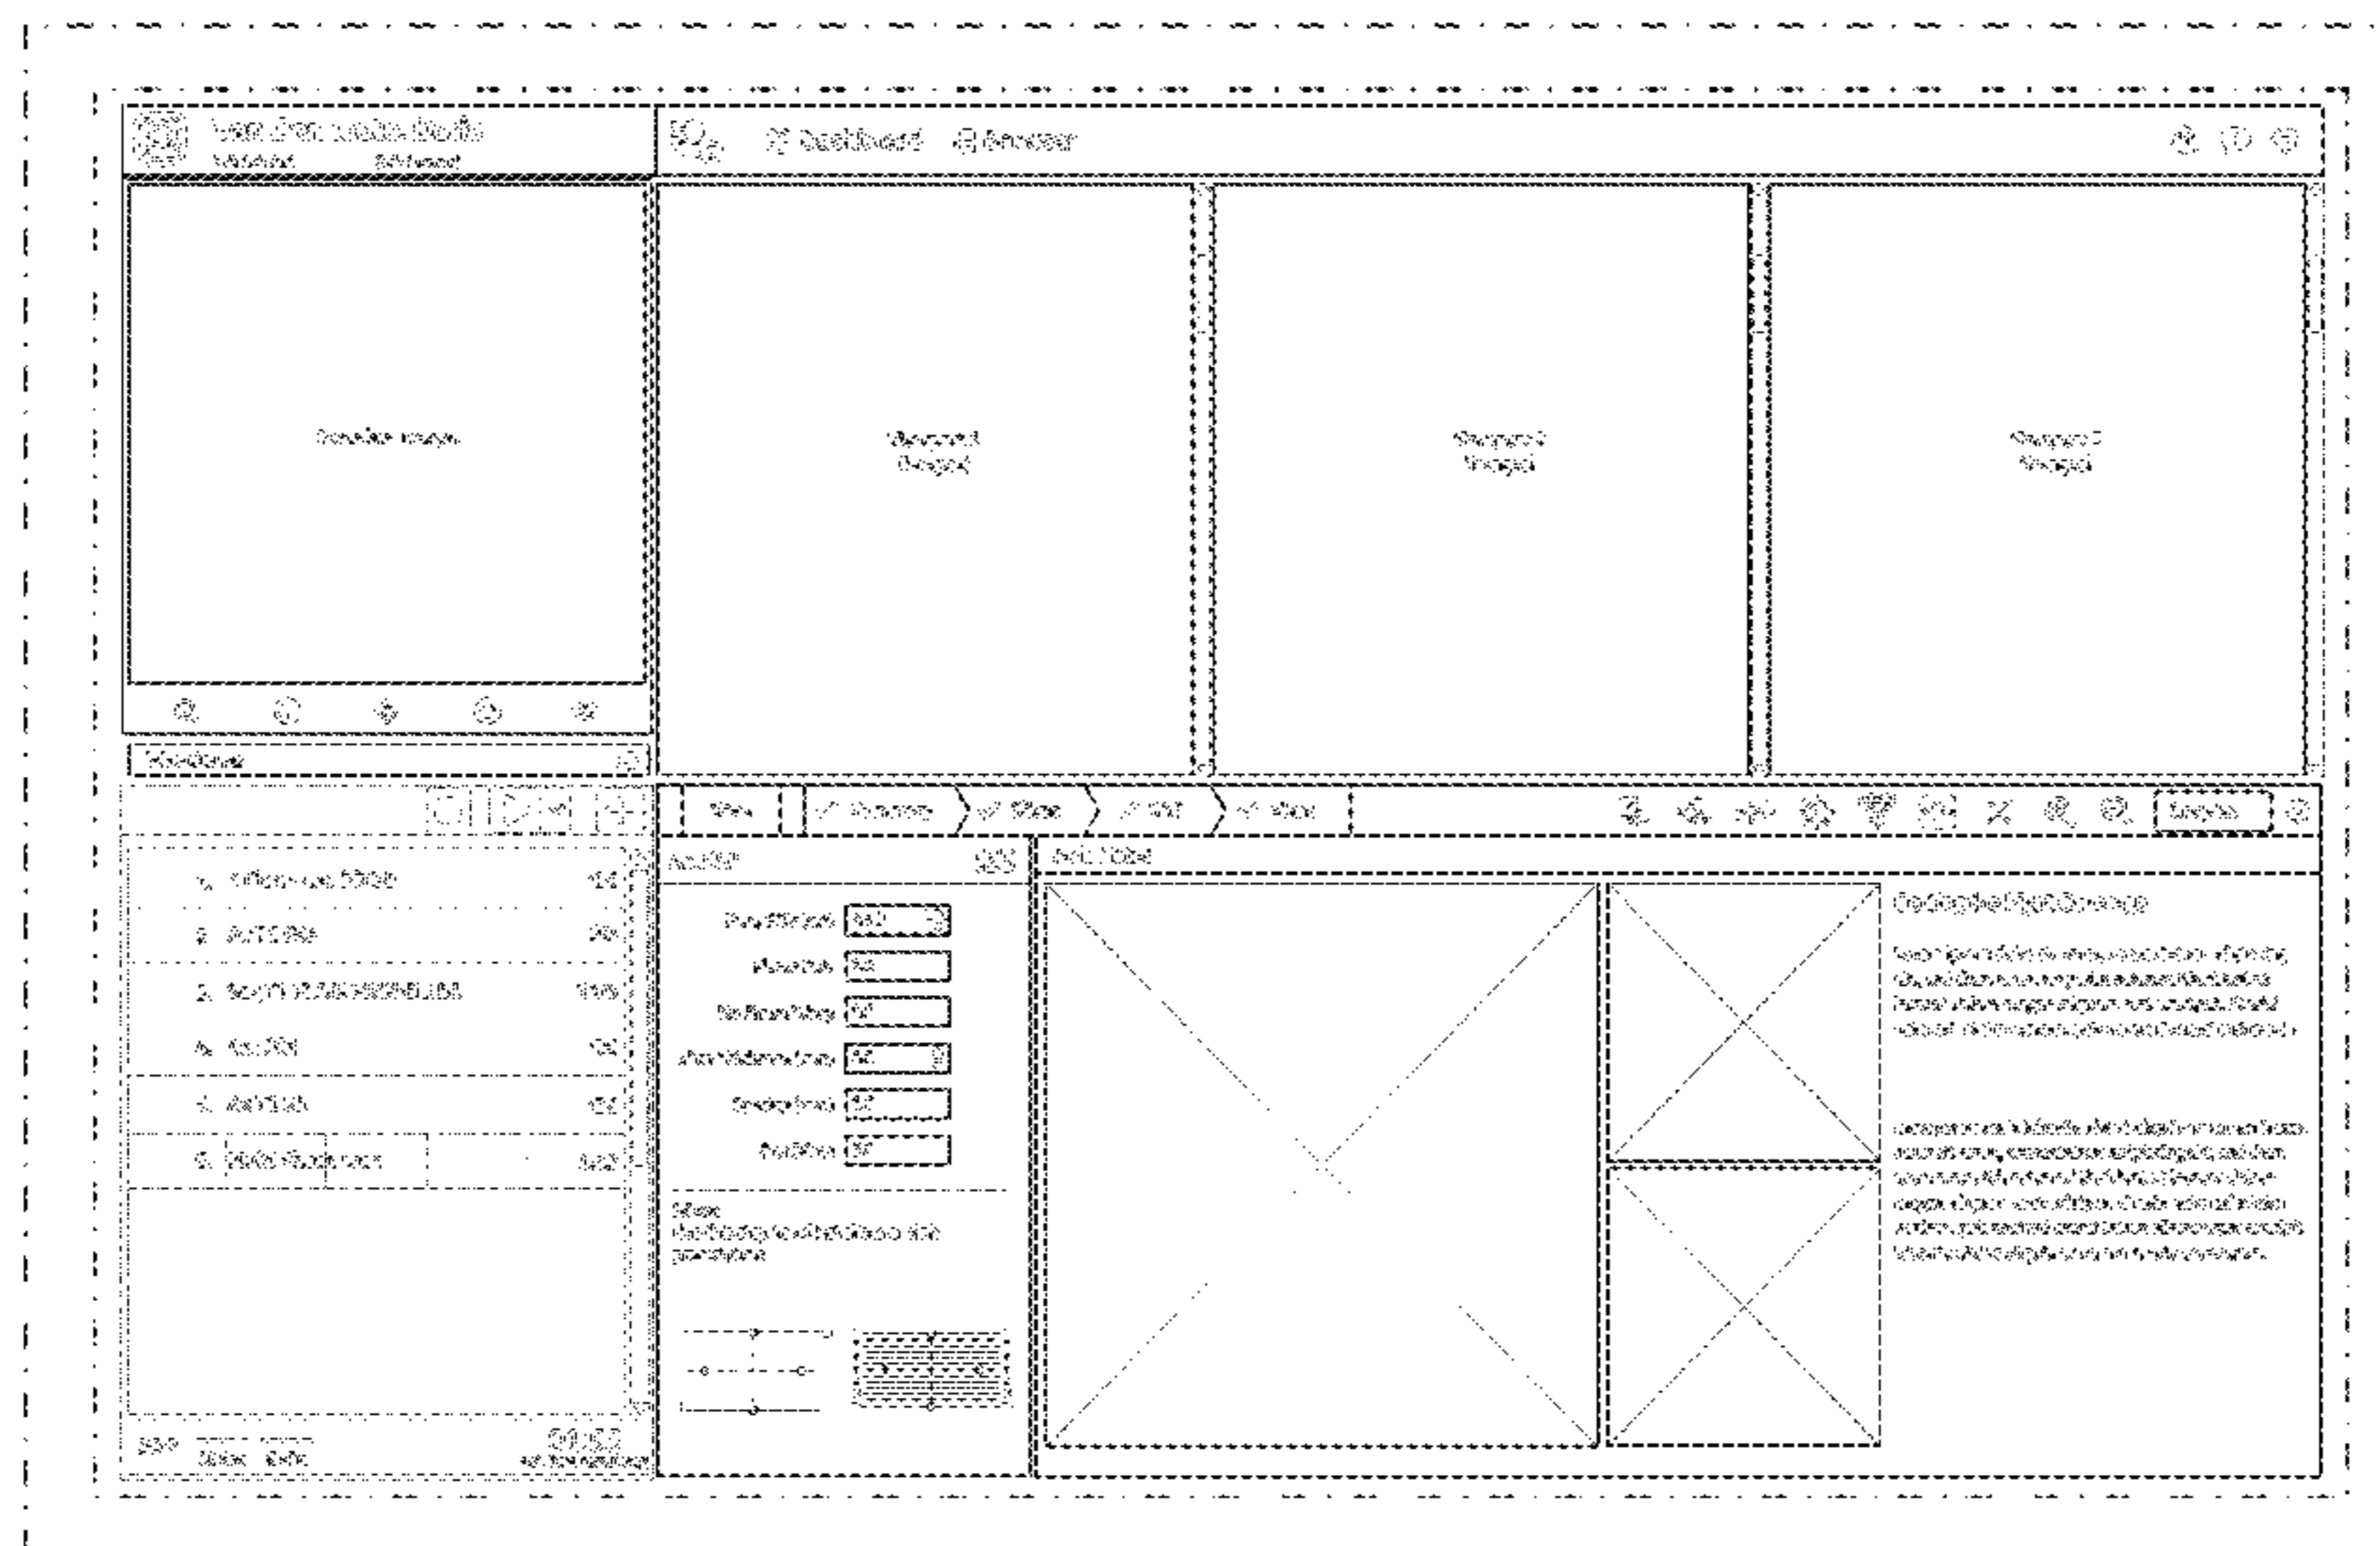

For purposes of clarity, the graphical user interface is shown as it would appear on the display screen and is used to display patient images and imaging settings of an imaging system, such as a Magnetic Resonance (MR) imaging system.
