(57) **CLAIM**

The ornamental design for a medication adherence apparatus, as shown and described.

DESCRIPTION

FIG. **1** is a perspective view of a medication adherence apparatus showing our new design.
FIG. **2** is a top view of the medication adherence apparatus showing our new design.
FIG. **3** is a front view of the medication adherence apparatus showing our new design.
FIG. **4** is a side view of the medication adherence apparatus showing our new design.
FIG. **5** is a rear view of the medication adherence apparatus showing our new design.
FIG. **6** is a bottom view of the medication adherence apparatus showing our new design.
FIG. **7** is a perspective view of a medication adherence apparatus in an open position showing our new design.
FIG. **8** is a top view of the medication adherence apparatus in the open position showing our new design.
FIG. **9** is a front view of the medication adherence apparatus in the open position showing our new design.
FIG. **10** is a side view of the medication adherence apparatus in the open position showing our new design.
FIG. **11** is a rear view of the medication adherence apparatus in the open position showing our new design; and,
FIG. **12** is a bottom view of the medication adherence apparatus in the open position showing our new design.
The broken lines in the drawings show portion of the medication adherence apparatus that form no part of the claimed design.
