(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface for sketching assignment feedback, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee. The color forms part of the claimed design for the embodiments shown in FIGS. 1 through 4.

FIG. 1 shows a front view of a display screen or portion thereof with graphical user interface for sketching assignment feedback that incorporates our new, original, and ornamental design.

FIG. 2 shows a front view of a display screen or portion thereof with graphical user interface for sketching assignment feedback that incorporates our new, original, and ornamental design.

FIG. 3 shows a front view of a display screen or portion thereof with graphical user interface for sketching assignment feedback that incorporates our new, original, and ornamental design.

FIG. 4 shows a front view of a fourth embodiment of a display screen or portion thereof with graphical user interface for sketching assignment feedback that incorporates our new, original, and ornamental design.

FIG. 5 shows a front view of a fifth embodiment of a display screen or portion thereof with graphical user interface for sketching assignment feedback that incorporates our new, original, and ornamental design.

FIG. 6 shows a front view of a sixth embodiment of a display screen or portion thereof with graphical user interface for sketching assignment feedback that incorporates our new, original, and ornamental design.

FIG. 7 shows a front view of a seventh embodiment of a display screen or portion thereof with graphical user interface for sketching assignment feedback that incorporates our new, original, and ornamental design; and,

(Continued)

FIG. 8 shows a front view of an eighth embodiment of a display screen or portion thereof with graphical user interface for sketching assignment feedback that incorporates our new, original, and ornamental design.

Dashed lines in the figure form no part of the claimed design. The bounding dashed lines of the Figures represent the display screen on which the user interface is presented.
