(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

A portion of the disclosure of this patent document contains material to which a claim for copyright is made. The copyright owner has no objection to the reproduction of the patent document or the patent disclosure as it appears in the U.S. Patent Office records, but reserves all other copyright rights whatsoever.

FIG. 1 illustrates a front view of a display screen with graphical user interface; and,

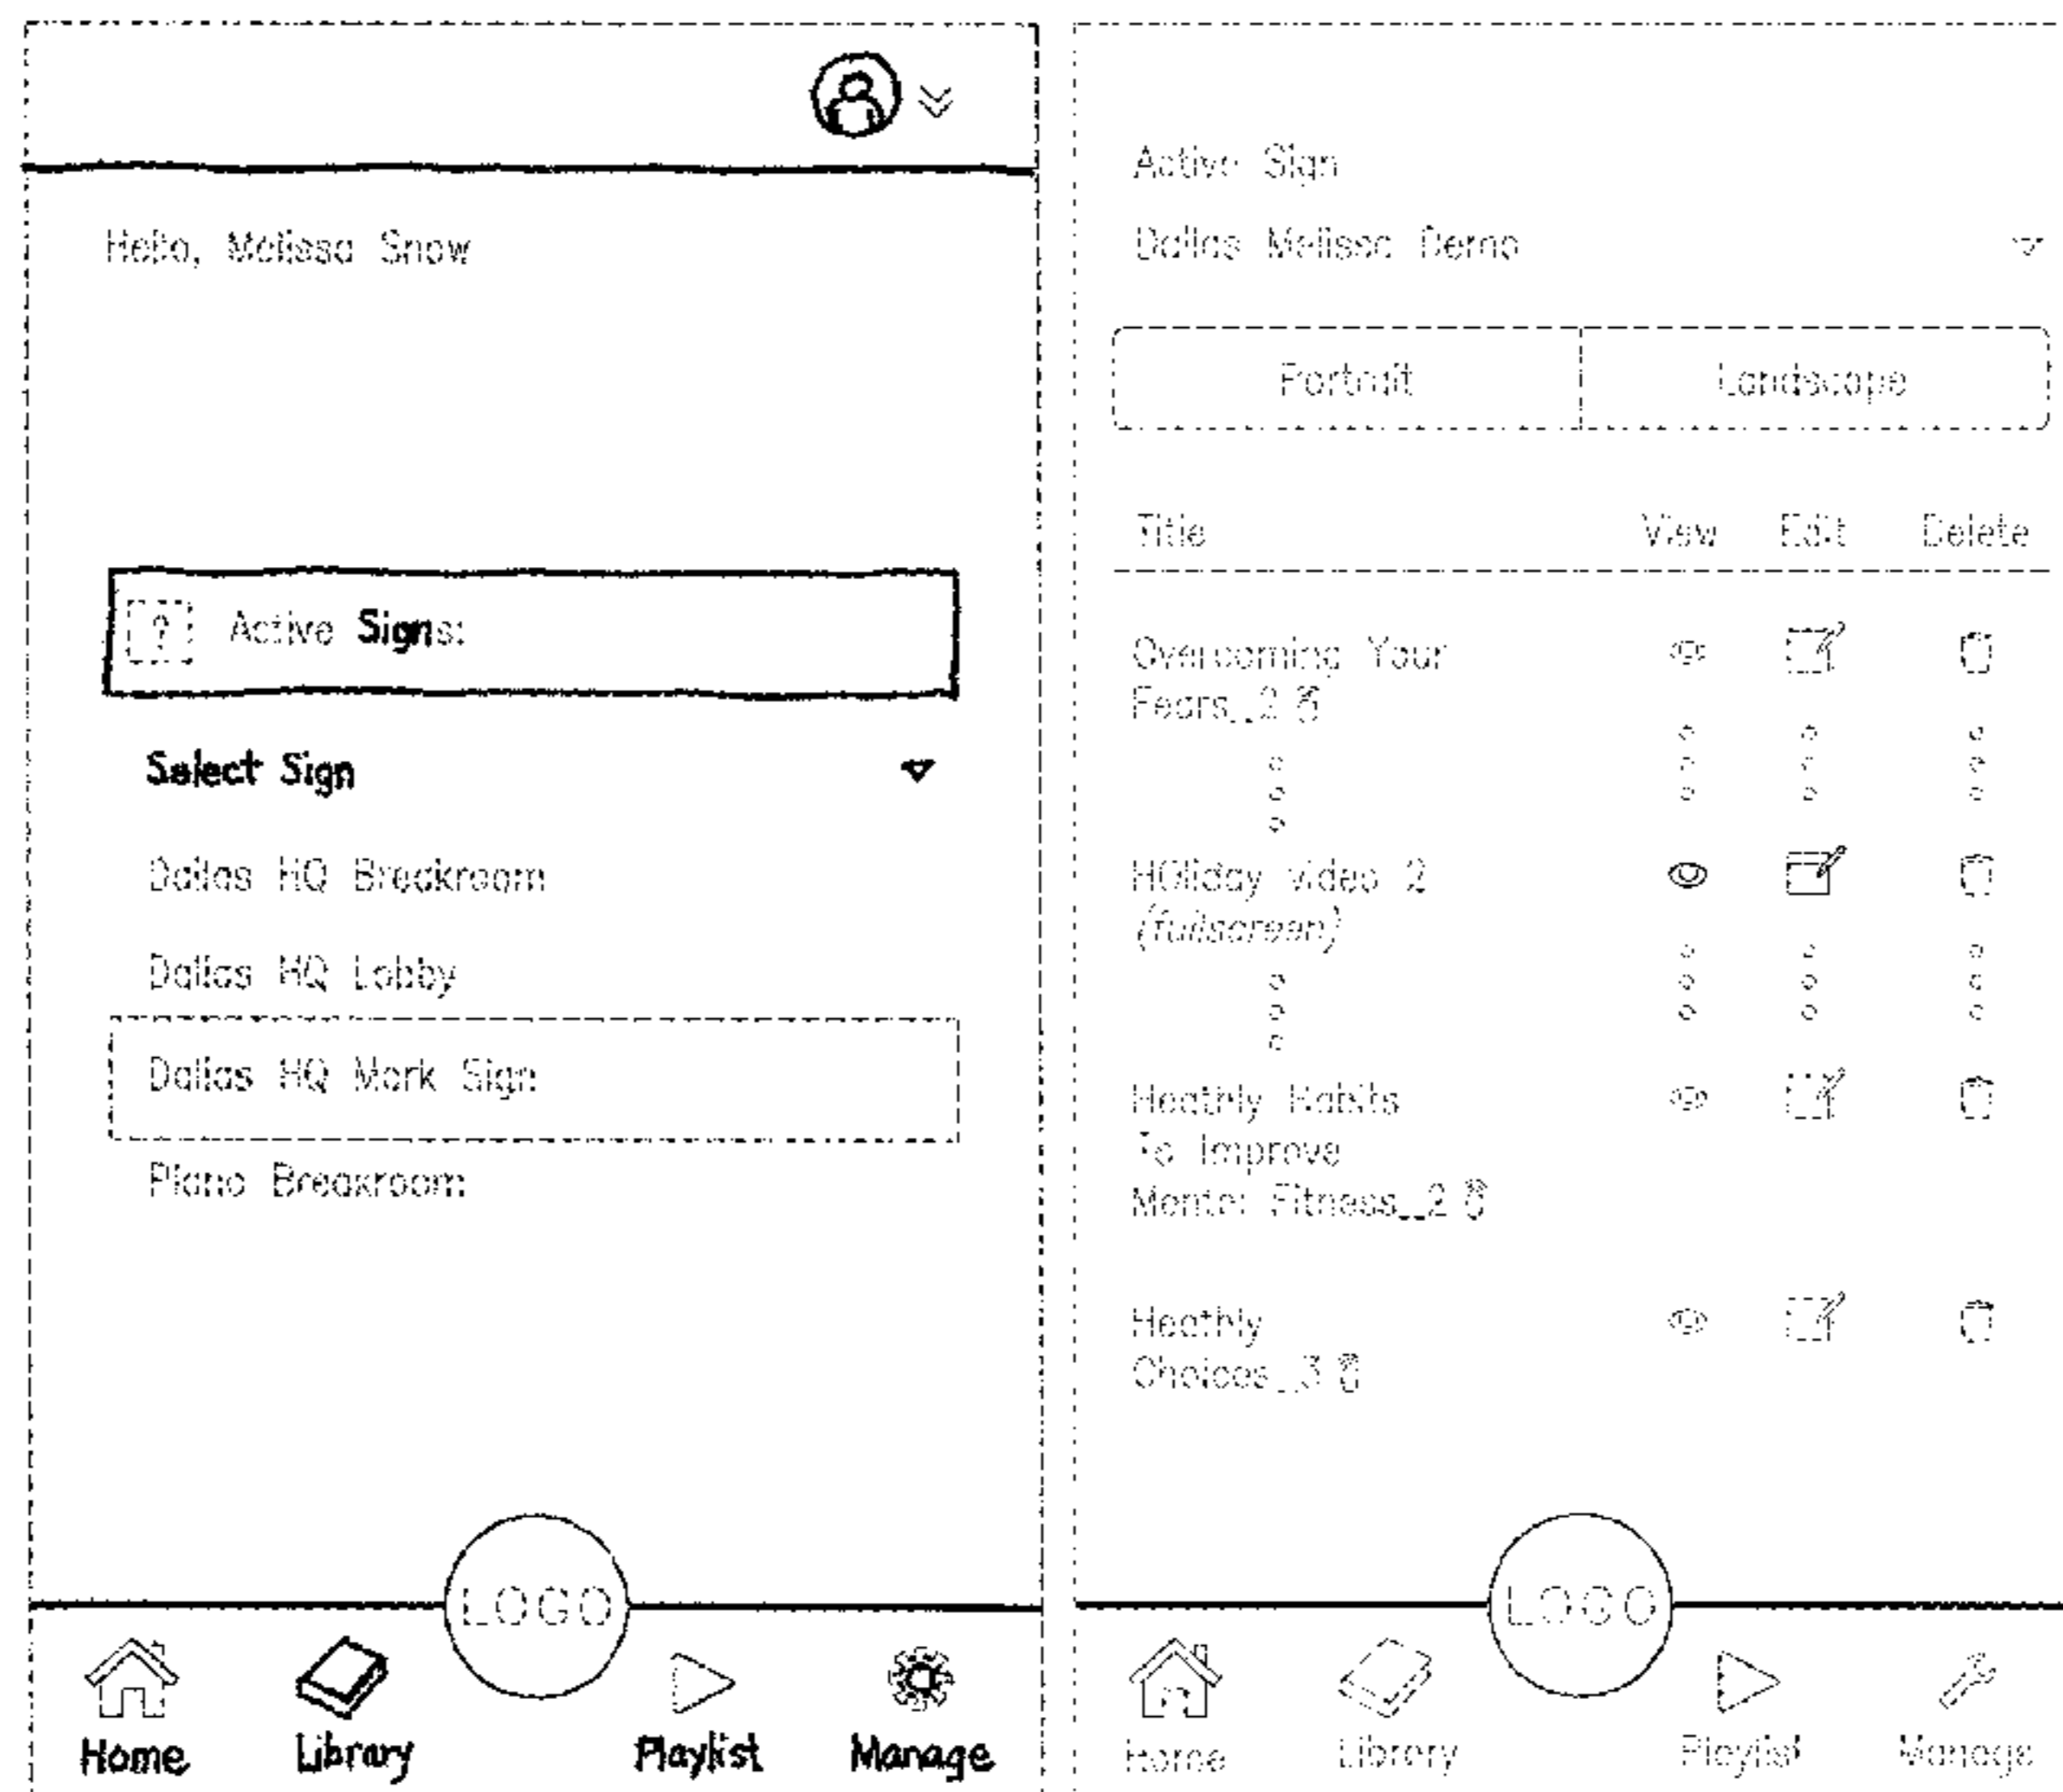

FIG. 2 illustrates a front view of a display screen with graphical user interface.

FIGS. 1-2 may be displayed on a display screen of any appropriate computer such as, but not limited to, a mobile device display or a laptop display.

The appearance of the graphical user interface transitions sequentially between the images shown in FIGS. 1-2. The process or period in which one image transitions to another forms no part of the claimed design.

The broken lines showing a display screen and elements of the graphical user interface illustrate portions of the article, and form no part of the claimed design.
