(57) **CLAIM**

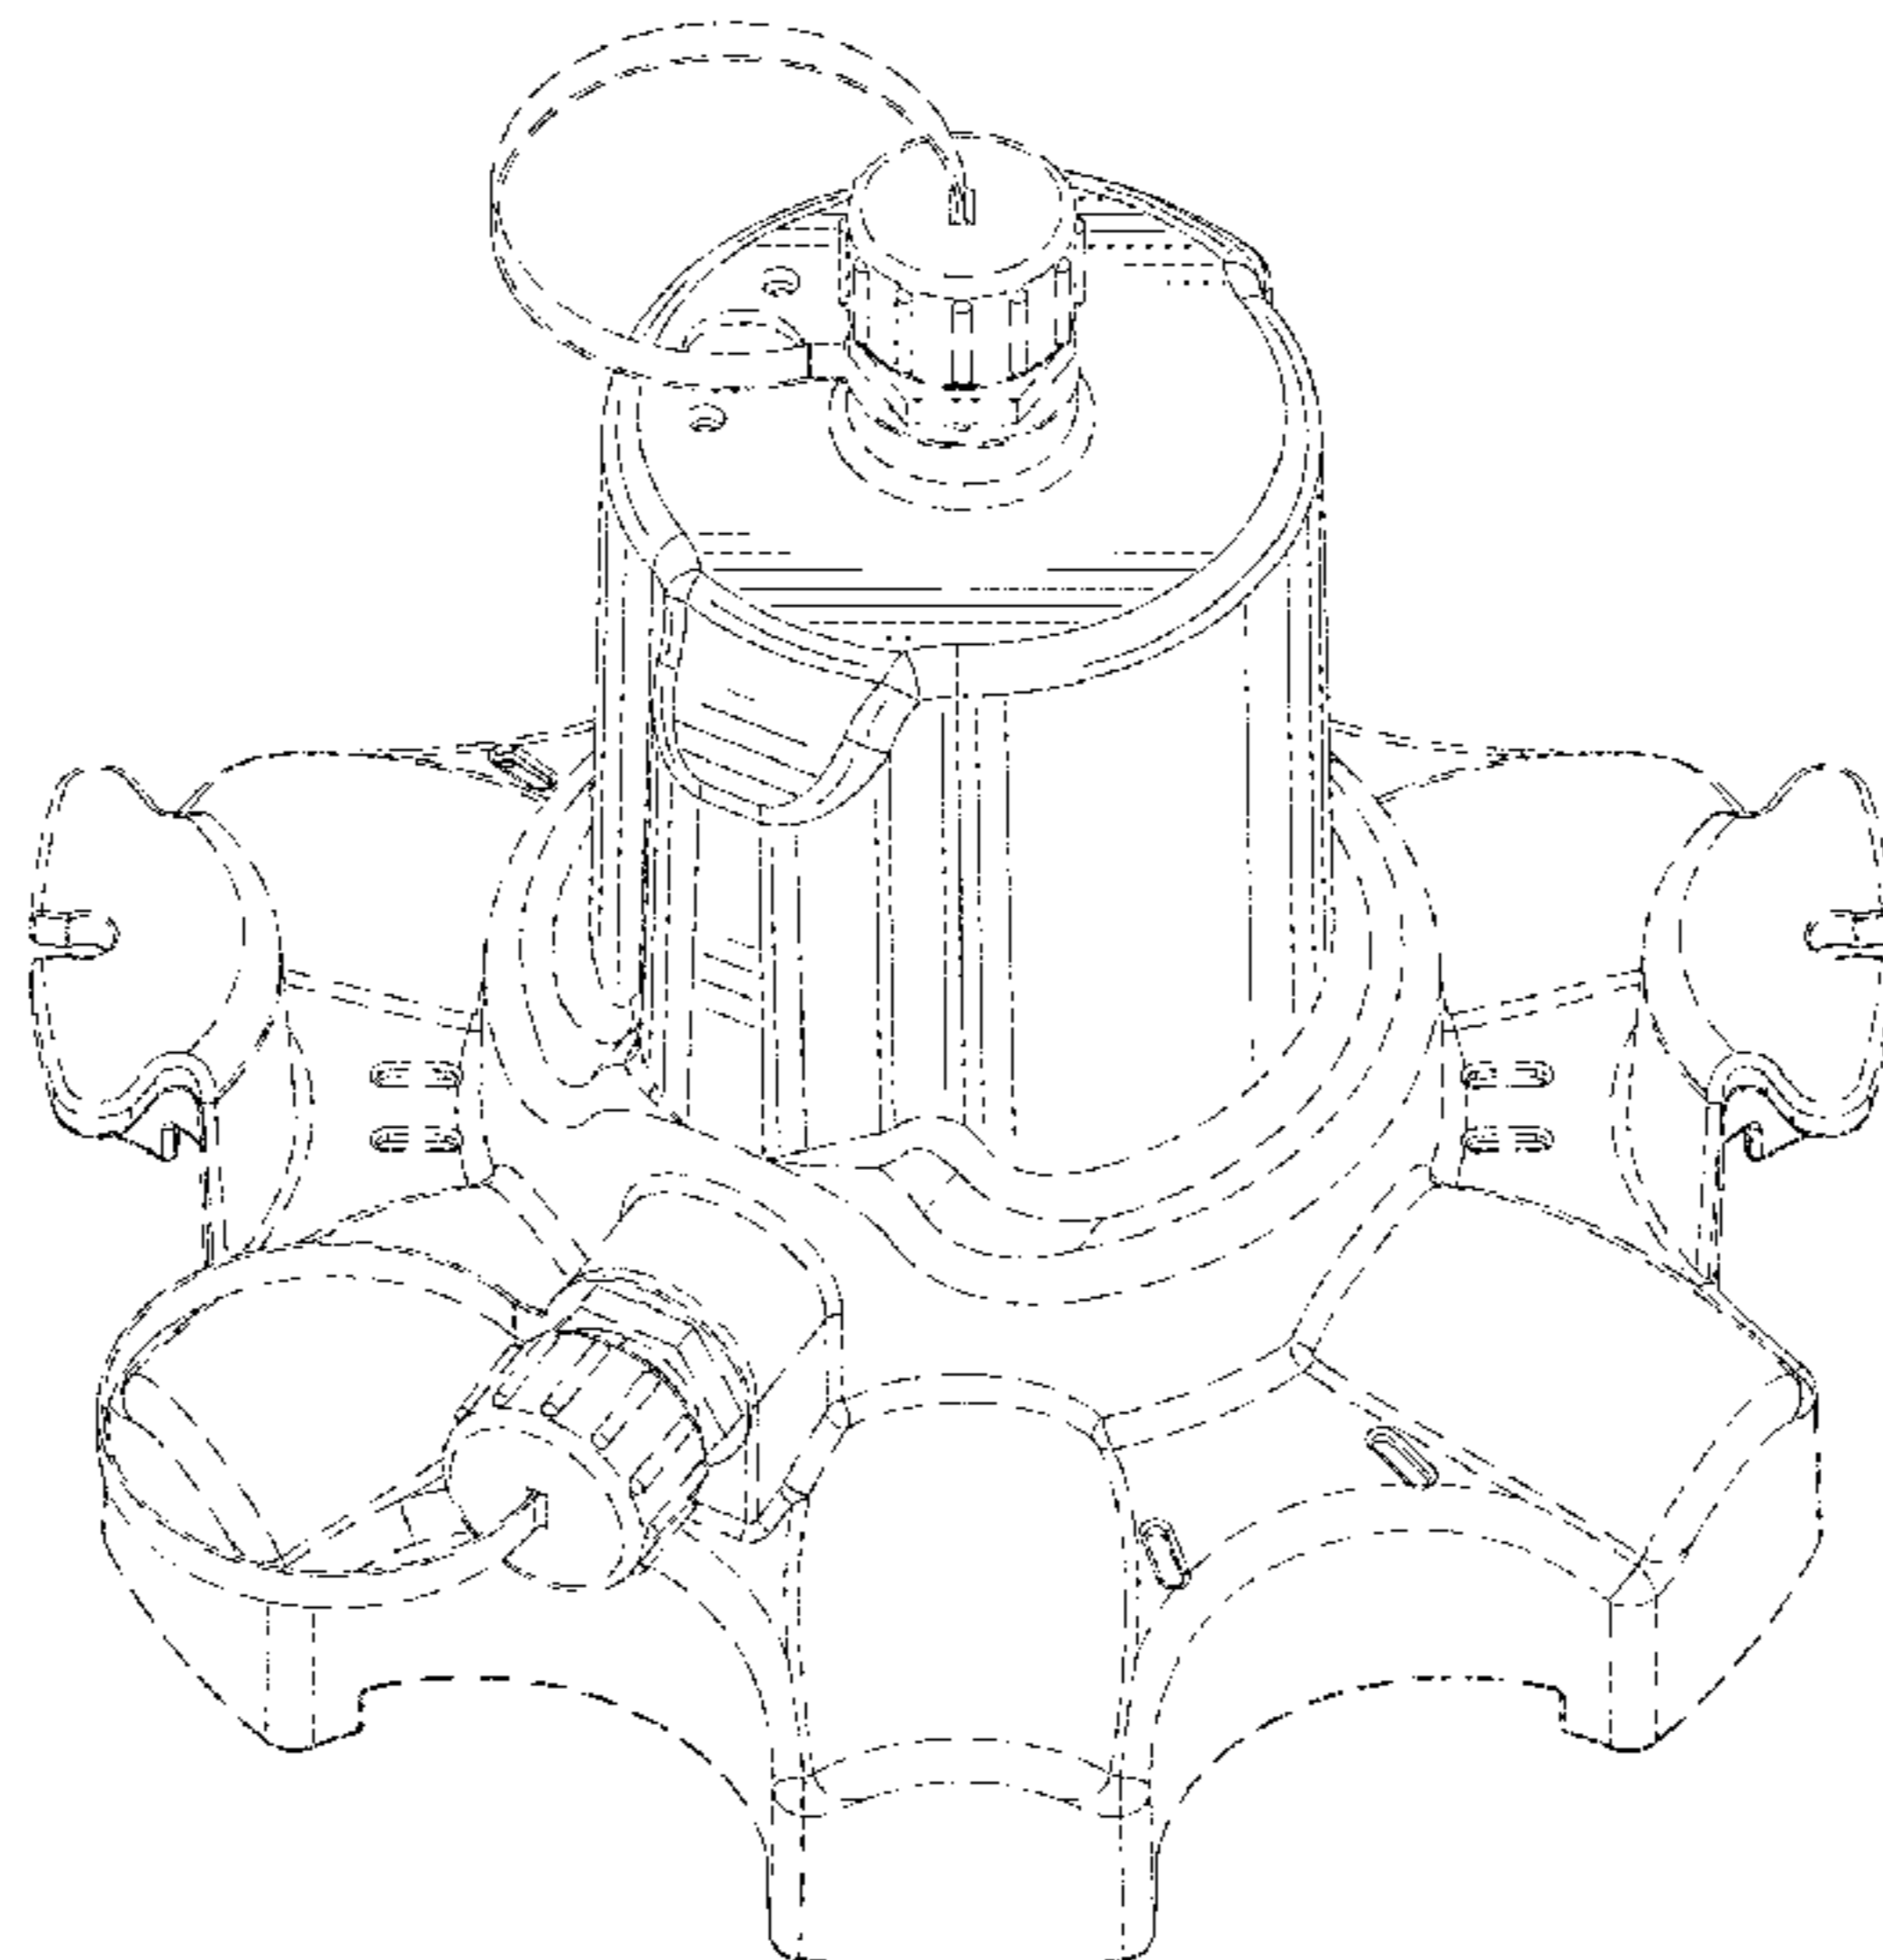

We claim the ornamental design for a pump housing, as shown and described.

**DESCRIPTION**

FIGS. 1-7 are perspective, left side elevation, right side elevation, front elevation, rear elevation, top, and bottom views, respectively, of a pump housing portion in accordance with a first embodiment of our design. In particular, FIGS. 1-7 are views of the upper portion of the pump housing of a pump assembly in accordance with our new pump housing design. Portions of the pump assembly are shown in broken line to illustrate unclaimed environmental subject matter that form no part of the claimed design, including, for example, all portions of the pump assembly not associated with the upper portion of the pump housing of the pump assembly.

As mentioned above, the pump components and portions of the pump shown in broken lines in the figures depict unclaimed environmental subject matter, are for illustrative purposes only, and form no part of the claimed design. Similarly, unshaded portions that appear between broken lines or beyond boundary or break lines in the figures form no part of the claimed design.
