DESCRIPTION

1. Remote controller for automobiles in the form of a
cushion

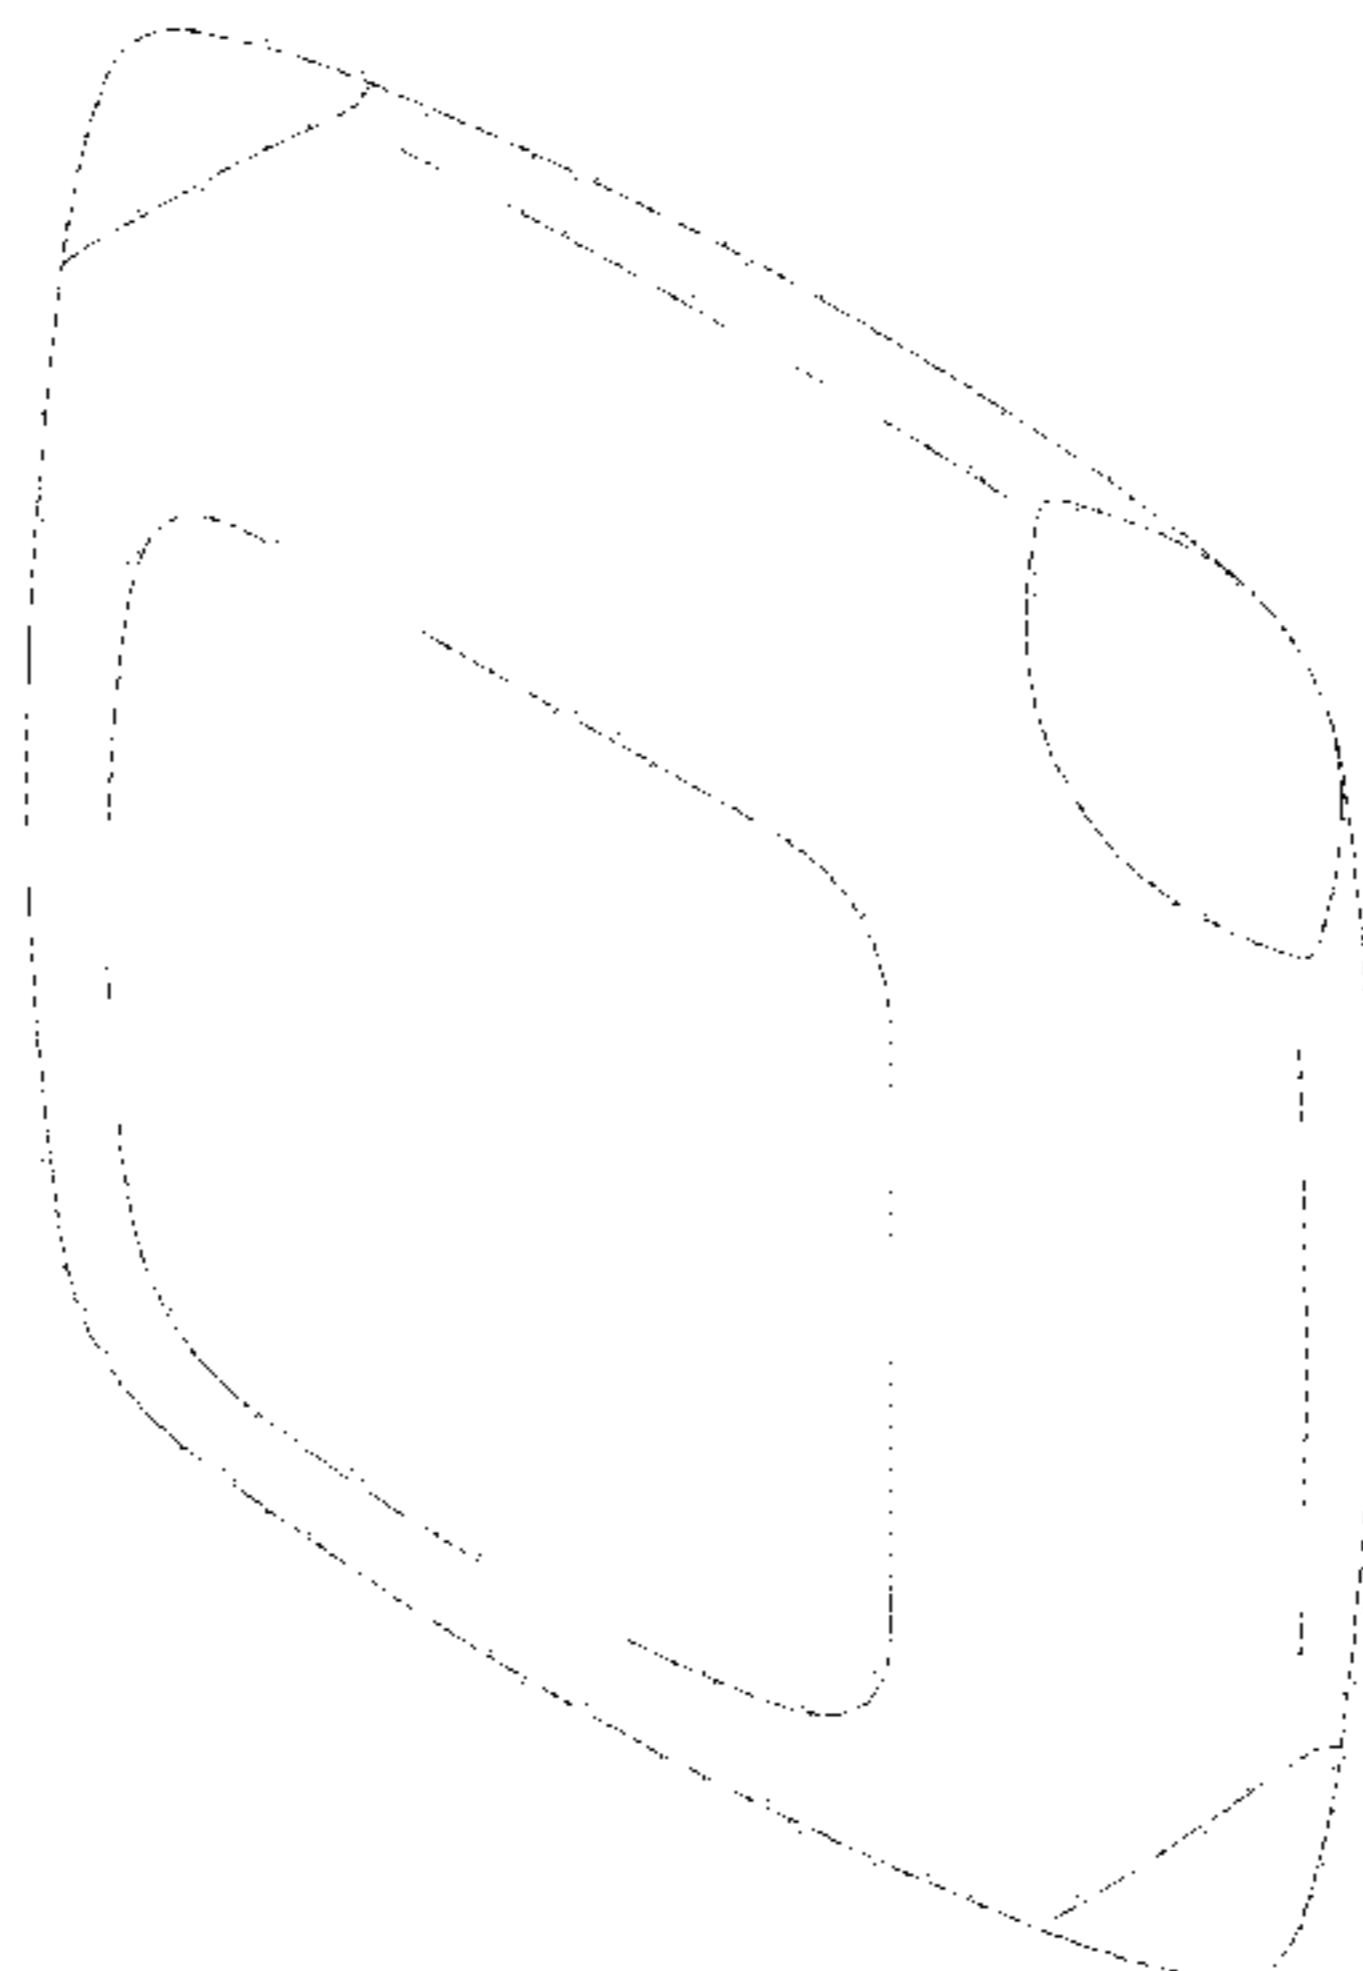

1.1 is a front perspective view of the remote controller for
automobiles in the form of a cushion;

1.2 is a front view thereof, where the back view is a mirror
image;

1.3 is a left view thereof where the right view is a mirror
image;

1.4 is a top view thereof where the bottom view is a mirror
image;

(Continued)

1.5 is a second front perspective view showing an example of the use state in which the claimed design has been used in an automobile.

The broken lines depicting an automobile in reproduction 1.5 depict environmental subject matter that forms no part of the claimed design.

1 Claim, 5 Drawing Sheets
