(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view according to a first embodiment of our design for a display screen or portion thereof with graphical user interface;

FIG. 2 is a front view according to a second embodiment of our design for a display screen or portion thereof with graphical user interface;

FIG. 3 is a front view showing the design shown in FIG. 1 in a different environment; and,

FIG. 4 is a front view of the design shown in FIG. 2 in a different environment.

The outermost broken line rounded rectangle showing an electronic device illustrates environmental subject matter. The broken line showing a display screen, and all other broken lines showing portions of the graphical user interface illustrate portions of the article. None of the aforementioned broken line subject matter forms part of the claimed design.
